TITLE: <b>JOHN J. McGUIRE, JR.</b>			CHARACTER OF CASE: <b>APPLICANT - SPECIAL AGENT</b>

**SYNOPSIS OF FACTS:**

John T. Eagan, Secretary, Board of Child Welfare, and Judge James G. Wallace, N.Y.C. advise applicant of very good family and of outstanding ability and character.

**REFERENCE:**

Report of Special Agent J. L. Dalton, New York City, dated 8/1/35.

**DETAILS:**

**AT NEW YORK CITY:**

Judge James Garrett Wallace, General Sessions Court, Criminal Courts Building, Centre and Franklin Streets, New York City, advised Agent that he knew applicant's father for approximately 20 years; that applicant and his entire family are a very high type people. He stated that he had been well acquainted with applicant for the past 15 years, and believes him to be a young man of fine character, ambitious, industrious and intelligent.

**DETAILS:** Judge Wallace stated that for the past two years, McGuire has been Treasurer of the Twelfth District Democratic Club, of which he is a member. Applicant was appointed to succeed his father in this position after his father's death, inasmuch as the leaders of the club had complete confidence in applicant's honesty and general integrity of character.

--	--	---

He further advised that applicant had educated himself mainly through his own efforts, and that he held applicant in higher regard than any young man of his acquaintance. He stated that applicant is quiet and gentlemanly in his demeanor, and has a very good personality.

Mr. John T. Eagan, Secretary, Child Welfare Board, Old County Courthouse, City Hall Park, New York City, advised that he has known the applicant and his family for over 20 years; that the McGuire family, which includes the applicant, his sister and mother, is held in the highest regard by all who know them. He stated that applicant is a young man of sound character, absolutely honest and dependable in all his dealings, intelligent and industrious. He stated that he knew of no young man whom he could recommend more highly than applicant for character and ability.

Mr. Eagan advised that he is the leader of the Twelfth District Democratic Club, and was largely responsible for having applicant appointed to the position of Treasurer. He stated that during the illness of applicant's father, he was deputized to temporarily handle the position, that is, receiving funds and making disbursements. After the death of applicant's father, he was appointed permanently. Mr. Eagan stated that he, as well as the other members of the club, had complete confidence in applicant's character and judgment; that while it was the usual procedure to place the Treasurer under bond, this had not been done in applicant's case because of the high regard in which he was held by the members of the club.

Questioned in regard to applicant's political activities, Mr. Eagan stated that while applicant was in law school and after his graduation, he had some difficulty in obtaining employment, but that at no time had he attempted to use any political influence to obtain a position. He advised that he was the type of young man who wanted to advance entirely on his own merits, and that he was sure that applicant's friends would hesitate before asking him to use any influence in their behalf. He stated that applicant did not seek the position of Treasurer and did not, in fact, take an active part in the political affairs of the club but was appointed to the position because of the fine record which his father had made and because of the fact that the members of the club had complete confidence in the applicant.

It will be noted in the report of reference that John T. Eagan is referred to as President of the Child Welfare Board. His true capacity is that of Secretary. Miss McCluskey, referred to on page 4 of reference report as Secretary of the Board, is secretary to Mr. Eagan.

Since all investigation has been completed in this case, same is being closed.

MEMORANDUM FOR THE DIRECTOR.

RE: CLASS OF NEW SPECIAL AGENTS - OCTOBER 7, 1935  
to JANUARY 4, 1936

The following are comments concerning members of the Training School for New Agents which began October 7, 1935, and which is due to end on January 4, 1936. The comments offered concerning these employees emphasize their weaknesses with a view to aiding the Director in determining the first offices of assignment.

In the event such information will be helpful, I have divided the class into three groups as far as their general all-round ability is concerned, Group I including the best men in the class, Group II the men believed to be only average, and Group III the men believed to be below average in ability.

Group I

Pester  
Newson  
Wheeler  
Hendrick  
Doyle  
McCulloch  
Singman  
Landrum

Group II

Maier  
Moyer  
Ducannon  
Nicholson  
McGuire

Group III

Neal  
Pettijohn  
Hardison  
Morris  
Fisher  
Bryan

FRANK BRYAN

Age - 31; Legal residence - Rutledge, Tennessee; Office preference - Charlotte, Nashville, Louisville; Education - LL.B. degree.

Bryan is very nervous, is inclined to be a "lone wolf" and stays by himself quite a bit. Probably a loss during raids. Has had a nervous breakdown during class. Will need to be in a large office where there will be considerable necessary association with other Agents. Will require almost grand opera star treatment for a time because of his nervous condition. If he had not had the nervous breakdown during the course of the class, I would recommend that his services be dispensed with; however, this condition may warrant further sympathetic consideration. One of the larger southern offices with a sympathetic Special Agent in Charge is recommended.

December 21, 1935.

BERNARD BOYLE

Age - 26; Legal residence - New York City; Office preference - New York, Philadelphia, Boston; Education - A.B. and LL.B. degrees.

Boyle possesses a "New Yorker" air. He is rather intelligent and somewhat above average in self-confidence; is rather mature in thought and bearing. He is one of the best men in the class, who will get along in almost any territory, but it might be better to send him away from New York or New England in order to promote his development along broader lines.

LLOYD A. DUCOMMUN

Age - 26; Legal residence - Seattle, Washington; Office preference - Portland, Salt Lake City, San Francisco; Education - LL.B. degree.

His mentality and judgment are above average. He is easily embarrassed and blushes frequently. Would recommend an office where the Special Agent in Charge would take time to be helpful and stimulate confidence. Ducommun is about average, generally.

W. WILLIS FISHER

Age - 25; Legal residence - Washington, D. C.; Office preference - Washington, Charlotte, Nashville; Education - LL.B. degree.

Fisher is decidedly below average for the class. He is not very alert mentally and depends on others a great deal. He will need close supervision, not from a disciplinary standpoint, but because of his lack of outstanding capabilities which will probably cause him to be a slow starter. He seems unwilling to form opinions. It is understood that he has hemorrhoids; he has been out on occasions with colds and sinus trouble. The Agent in Charge at his first office should be willing to take plenty of time with this employee.

CHARLES A. HARDISON

Age - 27; Legal residence - Washington, D. C.; office preference - None; Education - LL.B. degree.

Hardison would be placed in the lower brackets of this class. It is hard for him to stay awake; he is not very fast mentally. He needs to be in a place where quick, vigorous, energetic action is frequently demanded and his Special Agent in Charge should be one who will inspire alertness. A small or medium-sized office is recommended.

December 21, 1935.

CARL E. HENNRICH

Age - 26; Legal Residence - Randolph County, Illinois;  
Office Preference - St. Louis, Denver, Dallas; Education - LL.B. degree.

Henrich is one of the better men in the class and is somewhat above average generally, possessing rather good judgment. Has shown himself to be very good at conducting interviews. He is a fingerprint expert and will undoubtedly be able to adapt himself successfully in any territory where he may be assigned.

SAMUEL B. LANBRIEM

Age - 24; Legal residence - Marlin, Texas; Office preference - Dallas, New Orleans, Denver; Education - A.B. and LL.B. degrees.

This Agent is in the upper fifty per cent of the class in general ability. He is inclined to be a little too technical about legal problems as is typical of recently graduated law students. He shows some prospects of further development although it is believed that a very practical Special Agent in Charge would be best for him and I think he will do well in any office of the Bureau.

JOHN R. McCULLOCH

Age - 25; Legal residence - Portland, Oregon; Office preference - Portland, Salt Lake City, San Francisco; Education - B.S. and LL.B. degrees.

McCulloch is quiet, but substantial. He is decidedly one of the better men of the class. He needs to develop some handshaking tendencies and a rural territory might aid him in developing a friendlier approach than would be the case if he were assigned to a territory where most contacts are short, snappy and very business-like. He is too much inclined that way at present. He is a good prospect, and with the above modifications he should do well in any office.

JOHN J. McGUIRE, JR.

Age - 26; Legal residence - New York City; Office preference - New York, Trenton, Buffalo; Education - A.B. and LL.B. degrees.

McGuire is just about average in mentality and general ability although he is possessed of a fair degree of self-confidence. Is addicted to a derby in a typical New York fashion. He needs to acquire informality. He refers to the younger lecturers before the training school as "that lad" which shows a rather impersonal attitude on his part which is typical of him. He is rather slow and would probably do better in a larger office, especially a northern office - the only exception I have in mind being Butte.

December 21, 1935.

ALBERT F. MAIER

Age - 27; Legal residence - White Haven, Pennsylvania; Office preference - Philadelphia, Los Angeles, Portland; Education - A.B. and LL.B. degrees.

This Agent is above average in mental qualifications and in judgment. He may develop along administrative lines. He is likeable but occasionally inclined to argue. He is something of a "play boy" but is energetic and I believe he will do well in almost any office.

GILBERT H. MEYER

Age - 29; Legal residence - Woodhaven, New York; Office preference - New York, New Orleans, Phoenix; Education - A.B. and LL.B. degrees.

This Agent is in the upper fifty per cent of the class in intelligence and in energy, but is not particularly outstanding. Until he becomes more adaptable, he is of the type which will probably do better north of the Mason and Dixon Line - from Boston to St. Paul.

WALTER M. MORRIS

Age - 26; Legal residence - Washington, D. C.; Office preference - Washington, Charlotte, Boston; Education - Ph.D. and LL.B. degrees.

This Agent is physically capable, is not excitable, leans too much on his superiors, asks many questions, and is no better than average mentally. He is lacking in assertiveness and vigor. A small office is recommended.

TOM E. NEAL

Age - 32; Legal residence - Austin, Texas; Office preference - Dallas, San Antonio, Denver; Education; High School - and Police Experience.

His lack of educational background is very obvious. He is a slow thinker and rarely asks questions. He is both a gum chewer and a gum pepper. He will need an office and an Agent in Charge where he can get help. Would serve best in the crime zone or the Southwest.

LEWIS A. NEWSOM

Age - 29; Legal residence - Shreveport, Louisiana; Office preference - New Orleans, Little Rock, Birmingham; Education - LL.B. degree.

In relative standing of the class, Newsom rates either first or second. He makes a very good appearance, has good judgment, good legal knowledge, and

December 21, 1935.

Seems to have some latent ability. I believe he would develop satisfactorily in any office, preferably not New York to begin with, however.

GORDON A. NICHOLSON

Age - 25; Legal residence - Salt Lake City; Office preference - Salt Lake City - or any office west of Denver; Education - LL.B. degree.

This Agent is hardly average in relative standing in his class. He asks a good many questions, however, and shows a desire to learn and it is believed he should be in a small office and in a small town where he can get help.

KENNETH P. PETTIGREW

Age - 26; Legal residence - Sheridan, Indiana; Office preference - Aberdeen, Denver, Kansas City; Education - LL.B. degree.

This employee is below average mentally. He makes only a fairly favorable impression but is rather pleasant. Not <sup>very</sup> understanding in any capacity. Would recommend smaller midwestern or southwestern office.

JAMES B. FOSTER

Age - 30; Legal residence - Milwaukee, Wisconsin; Office preference - Milwaukee, Phoenix, St. Paul; Education - LL.B. degree.

This Agent is decidedly one of the best men in the class. He is rather substantial and sound, above average in prospects. He is better prepared and nearer ready to start work as an investigator than any other member of the class. I believe he will do satisfactory work in any office of the Bureau.

LESTER SINGMAN (A)

Age - 25; Legal residence - Washington, D. C.; Office preference - Washington, Chicago, New Orleans; Education - B.S. and M.C.S.

This Special Agent (A) possesses about average mentality, seems to have no trouble in understanding accounting discussions before the class. He might be inclined to "let down" if not watched. It is believed he will fit in best in the east and that quite a bit of tough work would be helpful.

Memo. for the Director.

-6-

December 21, 1935.

JOE C. WHEELER

Age - 25; Legal residence - Biloxi, Mississippi; Office preference - New Orleans, Birmingham, Nashville; Education - LL.B. degree.

Wheeler is one of the best men in the class; is decidedly above average; is a good mixer. He is inclined to do a little sky-larking occasionally, but is a rather good prospect. He is southern, and it is believed he will do well in the west, mid-west, and even in Chicago.

Respectfully,

H. H. Olegg.

MEMORANDUM FOR THE DIRECTOR

-2-

January 15, 1936.

This Agent was about average in general ability. He possesses a fair degree of self confidence; is somewhat addicted to New York mannerisms and dress and his assignment elsewhere will, of course, broaden his outlook. He was fully cognizant of his responsibilities; displayed the proper amount of team work; was a little slow physically on occasions; about average in enthusiasm; satisfactory as to coordination between mind and muscle and as to poise and physique; hardly average in judgment; fair in tact; prospects are about average at the present time.

Respectfully,

H. H. Clegg.

Dear Sir:

I desire to advise you that the Bureau has received from the Public Health Service a summary of the physical examination taken by you on December 11, 1935 at Washington, D. C.

From a review of the physical report in question it is noted that you have an enlarged thyroid and some enlargement of the right axillary glands, which are the armpit glands. The examination of the lungs disclosed a few friction rubs at the left apex. It is also noted that you have flat feet, first degree in the right, your left foot being normal and that you have a pulse of 104 while sitting. The normal pulse in men is approximately 72.

The results of your physical examination are being submitted to you for your information.

Very truly yours,

Dear Sir:

Re: SPECIAL AGENT J. J. McGUIRE

This is a special thirty-day efficiency report concerning the above mentioned employee, who reported to the Los Angeles office on January 8, 1936.

This man is a new Agent in the service, this being his first office. In my opinion, he makes a very good impression, being clean, neat appearing and well mannered. I believe that he is possessed of good judgment and plenty of energy. He has been assigned to a few investigations, such as impersonation and National Motor Vehicle Theft Act cases. Unfortunately, the condition of the work in the Los Angeles office is such that it was absolutely necessary to use this man on a surveillance in connection with the Brekid case. I can fully appreciate that he should be given training and close supervision in connection with all types of investigative work, and it is my intention to do so as soon as the opportunity presents itself.

At this time he is engaged on a surveillance in connection with the Brekid investigation and is at Carlsbad, New Mexico. He has taken to investigative work so readily that I had no hesitancy in placing him on this assignment, as important as it is.

The reports that have been submitted by this employee have been written in an excellent manner. He operates a typewriter fairly well. I have had no opportunity to watch him during fire-arms training.

I believe that this man will develop into a very good Agent.

Very truly yours,

W. H. HANSON

## REMARKS

SAC Hanson states this is a new Agent in the Los Angeles Office, and unfortunately, because of the condition of the work in that district, it has been necessary to use him to a great extent on the Brekid surveillance; that on this assignment he has shown good judgment. Hanson believes that, considering the length of service in the Bureau for this Agent, he has a good knowledge of the work. Mr. Hanson states he is energetic, is able to dictate fairly well, and marshals his facts and expresses his thoughts very clearly. Hanson believes this Agent will develop into a very good Agent. He operates a typewriter very well, can drive an automobile, and is qualified in the use of firearms. Hanson believes he is an Agent who could be used on dangerous assignments.

This Agent attended the Training School ending January 4, 1936. Mr. Clegg in reporting on that class states McGuire is just about average in mentality and general ability, although he possesses a fair degree of self-confidence; that he needs to acquire informality; and that he is rather slow. In a memorandum for the Director dated January 15, 1936, Mr. Clegg states this Agent is average in general ability; that he possesses a fair degree of self-confidence; and that he is somewhat addicted to New York mannerisms and dress. Mr. Clegg further states he was fully cognizant of his responsibilities, displayed the proper amount of team-work, and was a little slow physically on occasions; that he is about average in enthusiasm and has prospects about average.

SAC Hanson in a thirty-day report dated February 13, 1936, covering this Agent, states he makes a very good impression, and he believes he is possessed of good judgment and will develop into a very good Agent.

## RECOMMENDATION

I respectfully recommend a promotion of \$100.

Consider carefully these definitions, keep them in mind when rating, and compare the employee with all others in the same position for the entire service:

EXCELLENT (93-100%).....Duty performed in HIGHLY EFFICIENT MANNER; qualified to a PREEMINENT DEGREE.

To what degree has he exhibited the following qualifications? Consider him in comparison with others in the same position for the entire service.

	GRADE	RELATIVE WEIGHT	TOTAL
KNOWLEDGE: Extent of information concerning all duties of his position; ability to analyze cases; practical application of intelligence and educational training; readiness of comprehension	80	7	560

In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Fair, Good, and Excellent. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column-headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS: -

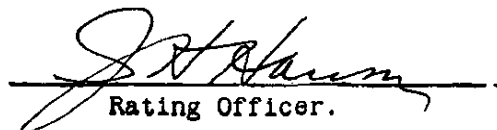

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

This man is a new Agent in the Los Angeles office, and unfortunately, because of the condition of the work here, it had been necessary to use him to a great extent on the Brekid surveillance. He was placed on this assignment because of the ability and good judgment that he displayed during the short time that he was engaged in general investigative work. I believe that, considering his length of service in the Bureau, he has a good knowledge of the work of this organization.

He is very energetic. He operates a typewriter very well. Up to this time this man has not had an opportunity to do a great deal of dictating, but has indicated that he dictates fairly well, and that he had marshaled his facts and expressed his thoughts very clearly. I have not had an opportunity to observe him as a witness, nor has he had an opportunity to work on any types of investigations excepting NMVTA, WSTA, Impersonation and some minor fugitive cases. I have not had an opportunity to observe him drive an automobile, but am told that he has ability in this respect.

I believe he will develop into an Agent who can be used on dangerous assignments. It is my opinion that this man will develop into a very good Agent.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? \_\_\_\_\_

  
Rating Officer.

Dear Mr. McGuire:

Receipt is acknowledged of your kind letter of July 28, 1936, in which you submit a suggestion which you believe will lead to an improvement in the operation of the Bureau.

I desire to express to you my appreciation for the courtesy and interest displayed by you in this regard, and to assure you that the contents of your communication will receive careful attention and consideration.

Director,

Dear Sir:

It is suggested that an addition be made to that portion of the Manual of Instructions, Section 2 - Identification Division, dealing with the Single Fingerprint File explaining the Bureau's modification of the special single fingerprint classification devised by Inspector Harry Battley of New Scotland Yard.

At the Bureau's Exhibit at the California International Exposition, San Diego, California, and in agent's contacts with local law enforcement agencies both law enforcement officials and laymen have frequently asked for an explanation of the method of classifying a single fingerprint used by the Bureau. The increasing public interest in fingerprint work is manifested by these inquiries and it is believed that Bureau Agents would be better qualified to meet such inquiries as fingerprint experts if they were acquainted with the method used. An outline of the essential features of the Bureau's method of classification would not only be an instructive aid and ready reference for Agents but would also enable them to keep ahead of the general knowledge local officers are acquiring concerning fingerprint work.

Very truly yours,

John J. McGuire,  
Special Agent.

Dear Mr. McGuire:

Further reference is made to your letter of July 28, 1936, wherein you offer a suggestion to the effect that an outline of the essential features of the Bureau's method of classification of single fingerprints be prepared for the field.

The Bureau believes that a treatise of this character would represent extremely technical work. It is not felt that the individual agents require such specialized training when they are in a position to refer the individual inquiries to the Bureau for specific advice. Nevertheless, I am appreciative of your thoughtfulness in forwarding this suggestion and I desire to thank you again therefor.

REMARKS

*id. from letter sent 1/26/37 WKB*

SAC Hanson reports that this employee has shown better than average development for a new Agent. He is a hard worker, possessing force, initiative and good judgment to develop into a very satisfactory employee. His paper work has been satisfactory and his rough drafts have been satisfactory. SAC Hanson states that Agent McGuire has had general investigative experience on all types of cases with the exception of bankruptcy and antitrust. Efforts will be made to give him this experience as soon as the opportunity presents itself. Mr. Hanson advises that he does not believe this Agent has any executive ability, but that this statement is based on the fact that he has carried out only the general duties of an Agent which have been satisfactory. He is competent in handling firearms and can be used on dangerous assignments as well as raids. He is an excellent automobile driver. SAC Hanson has not had an opportunity to observe him as a witness. This Agent makes a good appearance and he satisfactorily inspires confidence among all types of people.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

This employee has, in my estimation, shown better than average development for a new Agent. He is a hard worker, possessing sufficient force, initiative and good judgment to develop into a very satisfactory employee. His knowledge of the duties of his position is sound. His paper work has been satisfactory, he being a rapid dictator. The reports that he has submitted in rough draft have been submitted in a satisfactory manner. He typewrites fairly well.

He is competent in handling firearms and can be used on dangerous assignments, as well as raids. He is an excellent automobile driver.

He has had general investigative experience on all types of cases with the exception of bankruptcy and antitrust. Efforts will be made to give him this additional experience as soon as the opportunity presents itself.

I have not had an opportunity to observe him as a witness. This employee makes a good appearance and he satisfactorily inspires confidence among all types of people.

It is not believed that this employee has any executive ability, although this statement is based on the fact that he has carried out only the general duties of an Agent which, as has been indicated above, have been very satisfactory considering his experience, and perhaps if other duties could be given to him, any latent executive ability that he has might be developed.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? Yes

  
Rating Officer.

Re: SPECIAL AGENT J. J. McGuire;  
30 DAY EFFICIENCY REPORT.

Dear Sir:

I am submitting the 30 day efficiency report on Special Agent J. J. McGuire, in accordance with Section 34 of the Manual of Rules and Regulations.

Special Agent McGuire was assigned to the Richmond Division April 19, 1937, and continued at his post of duty at Roanoke, Virginia, where he had been previously designated by the Washington Field Division as Resident Agent. Mr. McGuire has performed a great volume of work in the Roanoke territory, much of which was of an expeditious nature. He assumed his responsibilities in an entirely unselfish manner as far as putting in a considerable amount of overtime. Agent McGuire writes good rough draft reports, and his work requires little supervision. He is energetic, aggressive, and goes ahead with his work without being told how to accomplish each step.

Special Agent McGuire is very serious minded, dependable, and attends strictly to his business. He has a fine personality, and with more experience as Resident Agent in the Roanoke territory, it is believed that he will develop into a better than average Agent.

Very truly yours,

**REMARKS**

Mr. Hottel states McGuire, from a brief observation, seems to him to be well qualified for the resident agency which he occupies; that he presents a neat appearance; has a pleasing personality; is loyal; his work requires very little supervision; he submits good rough draft reports; is a good typist; dictates well; uses good common sense in the discharge of his work; has initiative and force; he is accurate in his details; is a good automobile driver; is well qualified for dangerous assignments and, in his opinion, he would make a favorable government witness. This agent is now assigned to the Richmond Division.

**RECOMMENDATION**

I recommend Caf 11, \$3800.

Clyde Tolson.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Special Agent McGuire when he arrived in this District for assignment, was placed on a telephone tap at Baltimore, Maryland, for approximately one month. Subsequently, he was designated as the Resident Agent at Roanoke, Virginia. Agent McGuire performed considerable overtime while assigned to the case in Baltimore.

From my observation of Agent McGuire, it is my belief that he will make a good Resident Agent at Roanoke. He submits good rough drafts; is a good typist; dictates well and appears to be fully informed as to the duties of his position. Agent McGuire uses good common sense in the discharge of his duties; has initiative and force; is healthy and applies himself to his work. He is accurate in his details.

Agent McGuire presents a neat appearance; has a pleasing personality; is amenable to discipline and loyal to the Bureau. His work requires very little supervision. Judging from the work performed by this Agent while attached to the Washington Field Division, it is my opinion, that he has the makings of a very good Special Agent.

Agent McGuire is a good automobile driver; is qualified in the use of firearms and in my opinion is capable of being used on dangerous assignments. I have not had the opportunity of hearing Agent McGuire testify in Court but it is my opinion that he would make a favorable Government witness.

Special Agent McGuire was transferred to the Richmond Field Division as of April 20, 1937.

MEMORANDUM FOR THE DIRECTOR

Re: Administrative Class -  
Rough Draft Reports.

Each member of the class was furnished with two investigative reports, one of which contained fifteen basic, fundamental and material errors, and the other, fourteen. They were to assume that they were No. 1 men in the office and were Acting Special Agents in Charge during the absence of the SAC. They were to correct the reports and the number of errors found for correction was a basis for the grading of these reports. The errors were later called to their attention and the class members graded their own papers, which were subsequently checked for verification.

There is listed below the number of errors found by each Agent, out of a possible twenty-nine. The percentage made is also listed.

MEMORANDUM FOR MR. CLEGG

There are listed below the grades which employees under your supervision made on the written examination given at the conference of Bureau officials and supervisors on May 28, 1937:

\*\*\*\*\*

\*\*\*\*\*

M. W. Acers	66.75
<u>J. J. McGuire</u>	56.5

It is noted that Mr. Hickman was not required to take the examination.

The examination given at this conference was of such a type that it was reasonable to expect each employee present to make a grade of 85 per cent or more. It is absolutely imperative that steps be taken by those who occupy supervisory positions in the Bureau in order that they may be sufficiently informed concerning the contents of the Bureau's manuals and its policies so that they can make satisfactory grades on these examinations.

Very truly yours,

John Edgar Hoover,  
Director.

MEMORANDUM FOR THE DIRECTOR

Re: Administrative School  
Beginning May 17, 1937.

The following is my estimate of the various capabilities and qualifications of the members of the above mentioned Administrative School, which is presently in Washington, in the order of what I consider their relative efficiency from an administrative standpoint:

12. J. J. McGuire, JR. This employee is rather young in appearance, of a tall and angular build; is surprising in his demonstrated ability; is about average of the class of which he is a member, with about average prospects which have not yet been plumbed to the depths. I would recommend he be held in mind for a supervisory position.

**Suggestion 1 - Purchase and Assignment of Smaller Automobiles.**

It is suggested that in the event the Bureau contemplates the purchase of new automobiles that consideration be given to obtaining a smaller type of car.

- A- Experience has shown that the Hudsons now in use in many instances cannot be turned around on narrow roads due to their length without first searching the road for some distance for a suitable place in which to turn. The writer recently had occasion to locate a witness in a Bureau case who also was wanted on a local State charge. On arriving in the rural neighborhood where the witness was hiding the writer in driving a Hudson noted the witness driving a Ford in the opposite direction on the same narrow dirt road. In an endeavor to catch up with the witness it was necessary to drive in the opposite direction for some distance before a suitable turning place could be found and then due to the length of the rear end of the Hudson and of the car in general so much time was lost in getting the car faced about that it was impossible to catch up with the witness. Further due to the length of the car it was necessary to reduce speed on the numerous curves in the vicinity in order to maintain a margin of safety to the extent that the witness got away and has not as yet been located.
- B- Because of their size the Hudsons are more difficult to handle on curves and narrow roads.
- C- The presence of large conspicuous automobiles in rural areas invites local comment and draws attention more readily to the presence of a stranger in the vicinity.
- D- The sight of a Government employee driving what appears to be a luxurious expensive car is apt to cause some comment among uninformed taxpayers to the effect that cheaper cars are spurned by the Bureau as not being "classy" enough.

(3)

**Suggestion 3- Obtaining an Identifying insignia for Bureau cars for use in raids**

It is suggested that a leather flap be obtained for all Bureau cars on which the words "F.B.I. - U.S. Dept. Justice" or some such similar identifying insignia could be printed so that in conducting raids Bureau cars can be readily identified by local police officers and citizens alike and not be mistaken as holdup cars. The leather flap could hang on the inside of the driver's door with the printed words to the upholstery and could be of the same color as the upholstery so as not to be too noticeable when not in use. When put in use all that would be necessary to do is to lower the door window and throw the flap over to the outside of the car so that the printed insignia would mark the car as belonging to a law enforcement organization. Flaps, such as suggested, are frequently used by commercial salesmen and the general idea is obtained from that source. The use of such an identifying insignia would necessarily have to be restricted to raids or similar emergency purposes and could not be used for parking purposes by agents.

(2)

**Suggestion 2- Assignment of Smaller Automobiles.**

In the event smaller automobiles are purchased by the Bureau it is suggested that consideration be given in the assignment of the new cars to the type of territory covered by the various field divisions so that districts having mountainous and narrow winding rural roads will have the benefit of the smaller car.

As a consequence thereof, his headquarters are being changed from Roanoke, Virginia, to Richmond, Virginia, effective upon his arrival in Richmond.

It is not desired that this letter be construed as placing this agent on any different basis from the other agents attached to your Field Division, or affording him the authority to perform other than investigative work while you are at your post of duty.

Dear Mr. McGuire:

Further reference is made to your letter of June 29, 1937, transmitting several suggestions for the Bureau's consideration.

With regard to the use of smaller cars by the Bureau, as you no doubt know the field divisions are at the present time being furnished with these cars.

You suggested that consideration be given to the assignment of the new cars to the type of territory covered by the various field divisions so that districts having mountainous and narrow winding rural roads will have the benefit of the smaller car. The Bureau desires to inform you that this suggestion has been followed and wherever possible smaller cars were sent to those offices covering such territories.

With reference to your suggestion that the Bureau obtain an identifying insignia for Bureau cars for use in raids, this suggestion was submitted and rejected last year. However, it is being considered further at the present time.

May I again thank you for submitting these suggestions for the Bureau's consideration.

Sincerely yours,

<u>NAME</u>	<u>STANDING</u>	<u>RATING</u>	<u>RE MARKS</u>
Berens, A. G.	1	Excellent	Rapid, constant speed distinct.
O'Connell, G. B. (A)	2	Good Plus	Is rapid, uniform, distinct; uses correct form; has tendency to dictate from length, and well prepared notes which probably consume too much time.

JOHN J. McGUIRE, JR.	SPECIAL AGENT
ENTERED ON DUTY	OCTOBER 7, 1935.
SALARY	\$3,800.00
OFFICE OF PREFERENCE	NEW YORK CITY
QUALIFIED IN USE OF FIREARMS	YES

SPECIAL AGENT IN CHARGE BERENS

Advises that this agent is an exceptionally hard worker; that he is interested in the work of the Bureau, has made very good contacts, gets many new cases and is very likable. Agent in Charge Berens states that this agent writes excellent rough drafts, is a good typist and requires very little supervision.

INSPECTOR CONROY:

Agent McGuire is a nice appearing, well bred young man with a good personality. He apparently makes good contacts. I am inclined to believe that he is a forceful person when necessary. There appears to be little question but that he is energetic. He definitely has possibilities with the Bureau. In view of the resignation of Special Agent A. Hale Watkins, Number One Man of the Richmond office, Agent McGuire, without question, should be designated as Number One Man. Special Agent in Charge Berens possibly might not desire to remove him as Resident Agent at Roanoke, Virginia, because of the value of his services in that capacity; however, in view of this agent's possibilities, I believe he should be given administrative experience.

The stenographers of the Richmond office rate Agent McGuire as good. They state that he is even and distinct in his dictation, although possibly a trifle slow. His rough draft reports are excellent. Agent in Charge Berens states that he would rate this Agent as excellent. I am inclined to believe that in view of his short period of service such a rating would be too high. I consider him a "good" agent. Although he has distinct possibilities, he apparently is not yet outstanding. He is Resident Agent at Roanoke, Virginia. Incidentally, he had not yet submitted his June expense account, although same is over due. Since the opening of the Richmond office he has performed an average of 129 hours and 43 minutes per month over time, which is very good. On the test given him he received a grade of 90% on the Manual of Rules and Regulations, and 88% on the Manual of Instructions. This Agent definitely has possibilities. He should be placed in a position where the Bureau might have an opportunity to observe his capabilities.

I would like to recommend that this employee be transferred to Washington and assigned to the Research Division to take the place of Special Agent W. F. Whitely, who is being transferred from the SOG. I believe Agent McGuire has potential possibilities of development into an SAC and that assignment in the Research Division would give us an opportunity to determine upon the possibilities of such advancement.

MEMORANDUM FOR THE DIRECTOR

At 7:00 P. M., on the evening of October 28, 1937, the regular monthly conference of Bureau Officials and Supervisors was held in Training School No. 1.

The following were absent from both roll calls:

Mr. Egan	Mr. Hince
Mr. Tamm	Mr. Leckie
Mr. Appel	Mr. McIntire
Mr. Balch	Mr. Nichols
Mr. Blackburn	Mr. Q. Tamm
Mr. Coffey	Mr. Vogel
Mr. Gurnea	Mr. Whitely
Mr. Harbo	Mr. Lorry

Mr. Lorry was attending a new Agents' class which was in session in another school room at the same time and to which he is assigned as Monitor.

The following were out of town on official business:

Mr. Egan	Mr. Harbo
Mr. Appel	Mr. Leckie
Mr. Balch	Mr. McIntire
Mr. Blackburn	Mr. Nichols
Mr. Coffey	Mr. Q. Tamm
Mr. Gurnea	Mr. Whitely

The following were absent because of annual or sick leave:

Mr. Tamm (sick leave)  
Mr. Hince (annual leave)  
Mr. Vogel (annual leave)

October 28, 1937.

At the second roll call, Mr. Lawler and Mr. Brandt arrived a few minutes late, but their tardiness was due to the fact that I had specifically instructed them to go to their offices to secure some information relative to a case which was to be discussed extemporaneously and also information in answer to specific questions which had been asked as to the identity of a Special Agent who had performed certain improper investigative work in connection with the same case.

Mr. R. B. Clark, photographer in the Laboratory, arrived after the second roll call. However, he had been assisting in connection with some practical photographic work by some new Special Agents, and was not required to attend the conference.

Mr. Glegg discussed the changes which had been approved in the manual for field office Chief Clerks and in the Manual of Rules and Regulations.

Mr. Brandt led the discussion of the mishandling of a lead in a case by a Special Agent in the field, and this was followed by a discussion of possible leads in connection with the Hugh Gant Case which is still outstanding. Comments were made concerning the handling of the discussions by both Mr. Brandt and Mr. Lawler.

A written examination was given to all those present and the grades made are as follows:

Mr. Brandt	100	Mr. Scott	95½
Mr. Bundy	100	Mr. Singman	95½
Mr. Collier	100	Mr. Mathis	95
Mr. Drayton	100	Mr. Cornelius	94

Mr. Rosen	100	Mr. Lester	88
Mr. Schilder	100	Mr. Acers	87½
Mr. Spear	100	Mr. Baughman	87½

During the examination Mr. Pennington was called out on official business and did not return until after the examination papers were discussed and graded. It is recommended that he be listed as temporarily absent from the conference and that this absence be excused.

Announcements were made for a rehearsal of open forums, in preparation for the Special Agents in Charge Conference, with the supervisors of Divisions 1 and 2 at 5:00 P. M. on Friday, October 29, 1937, and with the staff of Division 4 at 2:00 P.M. on Saturday, October 30, 1937.

MEMORANDUM FOR MR. TOLSON

Re: Special Agent J. J. McGuire,  
30-day Report

Special Agent McGuire reported to the Research Division for assignment on October 25, 1937. His major duties consist of handling the general correspondence routed to the Research Division. Agent McGuire is industrious, conscientious, and is quick to pick up details. I feel that his development has been very satisfactory and believe he has definite possibilities for further development. Agent McGuire is quiet and at times appears to be unassuming. In other words, he does not put on as good a front as he is capable of and I firmly believe that when he accomplishes this that he will be ready to assume additional responsibilities. Agent McGuire has already made a few speeches receiving very good responses. His work is entirely satisfactory with every indication of further improvement.

Respectfully,

Nov. 15, 1937,

Hon. J. Edgar Hoover,  
Director, Federal Bureau of Investigation,  
U. S. Dept. of Justice,  
Washington, D. C.

My dear Mr. Hoover:

On last Friday, November 12th, we disposed of the last of our cases, growing out of the vice investigation, His Honor, Judge Eugene O'Dunne, meting out sentences of either imprisonment or fine to the various persons convicted.

We feel quite satisfied with the result generally. Most of the indictments resulted in convictions, and the few cases, wherein there were acquittals, were indicted against the judgment of this office. I am sure that we have established, through these cases, certain standards of conduct in our community, which will prove wholesome for some time to come.

I especially wish to thank you for your cooperation, and that of the men associated with you in the Federal Bureau of Investigation, whom you assigned to this matter.

Messrs. Turrou, Hennrichs and Ellsworth were untiring and most efficient in their efforts, and rendered valuable assistance to the State of Maryland, not to mention Messrs. Trapani, Ballini, Ransome, Scott, Wade and McGuire. It was a real pleasure to be associated with men so thorough and high purposed in their approach to their duty. While I have always had the highest respect for the FBI., these recent contacts have afforded a pleasant confirmation of that early opinion.

Again thanking you, and with kindest personal regards,

**REMARKS**

SAC Joseph considers this man an excellent Agent. He states that he was the No. 1 man in the Richmond Field Division prior to his transfer to the Bureau; that he exercised good judgment, had poise, was an extremely hard worker, followed up his work, and required a minimum of supervision. Mr. Joseph believes that he has a good knowledge of the Bureau's jurisdiction and the investigative requirements of the various types of violations. He states that this Agent has initiative, is forceful, accurate, marshalls his facts well, is a good dictator, and his attitude towards his work and loyalty to the Bureau are excellent. Mr. Joseph believes that this Agent has executive ability and will continue to develop. He states this Agent is a good automobile driver, is a good typist, has ability to handle involved cases, is excellent in the use of firearms, and he would not hesitate to use him on dangerous assignments. He advises that although he has not personally heard him testify in court, he understands that he makes an excellent witness.

At the conclusion of the administrative school ending June 12, 1937, Mr. Clegg advised that this Agent was rather young in appearance, was surprising in his demonstrated ability, was about average of the class of which he was a member, with about average prospects which might not yet have been plumbed to the depths. Mr. Clegg recommended that he be held in mind for a supervisory position. He was rated 8th in this administrative class in ability to appear before an audience and make a talk appropriate for a Special Agent or Bureau official.

During the inspection of the Richmond Division in July, 1937, Inspector Conroy commented favorably on this Agent, stating that he definitely had possibilities with the Bureau. Mr. Conroy recommended at that time that he be designated No. 1 man. He was rated as a good dictator by the stenographers, had performed a considerable amount of overtime, and obtained satisfactory grades in the tests given to the

DEC 30 1937

manual of Rules and Regulations and the manual of Instructions. Mr. Conroy stated that this Agent should be placed in a position where the Bureau might have an opportunity to observe his capabilities.

In a 30-day report submitted by Mr. L. B. Nichols on November 29, 1937, he advises that this Agent is industrious, conscientious, quick to pick up details, his development has been very satisfactory, and he believes that he has definite possibilities for further development. Mr. Nichols states that this Agent is quiet and at times appears to be unassuming and does not put on as good a front as he is capable of. Mr. Nichols states that this Agent has only made a few speeches, receiving very good responses. These responses are further reflected in the Agent's file.

RECOMMENDATION - I recommend an increase of \$200.

MEMORANDUM FOR THE DIRECTOR

Re: Conferences with SACs and Supervisors  
in fourth Special Agents in Charge  
Conference, December 17, 1937.

In accordance with your instructions, I conferred with members of the fourth Special Agents in Charge Conference relative to appropriate contacts with peace officers and individuals other than peace officers in their respective field office divisions and concerning the date you desired in connection with states in their respective jurisdictions which might initiate police training schools for local officers through federal grants.

My opinion as to the abilities of the members of the fourth conference follows:

SPECIAL AGENT "J. J. McGuire"  
SUPERVISOR, DIVISION FOUR

I have never had an opportunity to observe Supervisor McGuire in action in making contacts with law enforcement officers or citizens but do not believe, from my personal observation of him, that he could give a very good talk before peace officers' associations or civic groups. He is not recommended as a contact man for national law enforcement conventions.

A copy of this memorandum is being routed directly to Mr. Glegg for his personal and confidential information.

MEMORANDUM FOR THE DIRECTOR

RE: SPECIAL AGENT J. J. McGuire.

This is to advise that the above named employee attended the Special Agents in Charge Training School for the period December 13 to December 17, 1937, inclusive.

The Seat of Government employees did not take the firearms training at Quantico and the above mentioned instruction was confined to the class room instruction.

This young man made rather a favorable impression. He is new as a supervisor in the Bureau, yet he had some opinions of his own which were sound and his interest was of a desirable type. As far as his personal qualifications are concerned, I think that quite a bit of improvement can be expected with additional maturity and experience. His personality is not of the best type.

Respectfully,

H. H. Clegg.

Dear Father Foley:

My attention has been called to your letter of January 18, 1938, addressed to Mr. J. J. McGuire of this Bureau, which I have read together with your letter to me of the same date.

Your commendation of Mr. McGuire's address before the members of the Pathfinders Club of Georgetown University on the evening of January 17th, is sincerely appreciated. It is gratifying indeed to know that Mr. McGuire's remarks were so favorably received. I assure you it was a pleasure to make him available to the members of the Pathfinders Club of Georgetown.

The support which you accord to the endeavors of the FBI to eliminate crime in our Nation is most encouraging and your expression of confidence makes all the hard work seem the more worth-while. It is my earnest hope that we of the FBI may continue to merit the faith and confidence which you have expressed.

With best wishes and kind regards,

Sincerely yours,

John Edgar Hoover,  
Director.

Dear Mr. McGuire

In the name of the Pathfinders Club, let me express our sincere appreciation for the splendid talk you gave us last evening. It was not only extremely interesting but very instructive, giving us a much better insight into the workings of the bureau and its value to the country at large.

The enthusiasm of the boys speaks for itself, as you must have realized, after you had so patiently listened to and answered their questions for more than an hour.

I am writing to Mr. Hoover along these same lines; and I sincerely hope that I may be able to have you address the Club again next year. Our members will constitute a new group; and I am sure you will meet the same enthusiastic response that you experienced last evening.

With every good wish to you for continued success in your very important work; and again assuring you of our whole-hearted appreciation, I remain

Very sincerely yours,

## THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

MEMORANDUM FOR MR. TOLSON

I sincerely regret that by mistake two photographs were autographed by the Director to the Cubs and Boy Scouts of Troop 75 instead of to Troop 78.

The letter was dictated by Mr. McGuire as Troop 75 and was transcribed by Miss Kriechbaum as Troop 75.

I have discussed this matter with Mr. McGuire, Miss Kriechbaum, and Mr. Mathis who initialed the letter in my absence, and I do not think a similar error will occur in the future.

Respectfully,

MEMORANDUM FOR THE DIRECTOR

There follows the composite ratings of the members of the Executive Conference concerning the capabilities of the present Administrative School and their relative standing in potential ability as Special Agents in Charge:

Mr. Glavin did not participate in this rating as he is absent from the city and did not leave his rating list.

Mr. Tamm has not yet had an opportunity to see all the class members and submit his ratings.

Concerning each of the members of the class I desire to make the following comments calculated to convey to you my personal impression of the

PA

February 14, 1938.

members of this class from a standpoint of Special Agent in Charge material:

A. CORNELIUS

He is mature in appearance, but somewhat juvenile in judgment. He is big and robust, but somewhat flighty. I believe he is the type who would emphasize activity instead of proper direction.

As an administrator, I believe he would be "Unsatisfactory" primarily because of his potential difficulties with personnel and because of his inclination toward immature judgment. As an investigator, I would rate him as "Good" and as a salesman as "Good".

T. W. DAWSEY

I believe that this employee's appearance of profoundness is only skin deep. He is inclined to strive to create impressions, but he impresses me as being very superficial.

As an administrator, I would rate him as "Unsatisfactory". Among the reasons for this rating would be the fact that he would have difficulty discovering important things because of his tendency to over-emphasize the less important. In other words, he impresses me as being the type who could not see the woods for the trees and he likewise is of a temperament not calculated to make him well qualified to handle personnel.

As an investigator, I would rate him as only "Fair" because of his lack of experience, and as a salesman as "Good".

H. R. DUFFEY

I believe this employee is loyal, but he has a lackadaisical, slow-moving physical and mental attitude which conveys the impression that he is lazy. He does not appear to have qualities either of leadership or driving forcefulness.

I would therefore rate him "Unsatisfactory" as an administrator; "Fair" as an investigator and "Fair" as a salesman.

M. E. GURNEA

I consider this employee to be forceful, capable and generally competent and well adaptable. He appears on first acquaintance to be cold and phlegmatic, but this is not true, although it might to some extent keep him from making the best first impression. He is not always inclined to jump into things and assume control, but once he feels this is his duty, he does so with vigor and positiveness.

I would rate him as "Good" as an administrator; "Excellent" as an investigator and fairly "Good" as to salesmanship.

February 14, 1938.

S. W. HARDY

This is a loyal employee who I believe really loves his work. I have seen him act in charge of an office temporarily. He gets everything initialled properly, but not acted upon. The job of Special Agent in Charge, I feel, is way over his head and in such a capacity he would be somewhat in a position of a boy scout playing President.

I would rate him as "Poor" as an administrator; "Good" as an investigator and "Fair" as a salesman.

J. E. LAWLER

This employee is five feet, seven inches, in height; is slightly built and therefore is rather unimpressive on first appearance. He has a good mind, good ideas and good judgment. He has interest in the work. He tries hard. He likewise has personal forcefulness.

As an administrator, I would rate him as "Good"; as an investigator "Good" and as a salesman as "Fair".

A. B. LECKIE

This employee is not profound, but he does try hard. He presents a good front and would make a favorable impression as a Special Agent in Charge. He has some ability and quite a bit of enthusiasm.

As an administrator I believe he would rate as "Fair"; as an investigator as "Good" and as a salesman "Good".

J. J. MCGUIRE

This employee is rather lean and lanky, but has latent ability which has not yet developed sufficiently to justify his designation as a Special Agent in Charge. He makes an unfavorable first impression due to his appearance.

As an administrator I would rate him as "Fair"; as an investigator as "Good" and as a salesman as "Unsatisfactory".

S. K. MCKEE

This employee is rather shrewd and cagey. He looks as if he were pleased with himself and there is some justification for it as he does have some ability. He would probably have some trouble handling personnel.

As an administrator generally, however, I would rate him potentially as "Good"; as an investigator "Good" and as a salesman as "Fair".

A. ROSEN

This employee is conservative and enthusiastic; relatively safe and sound. He is liable to become tied down to his desk to the exclusion of outside functions. He is Jewish.

Memo. for the Director.

- 4 -

February 14, 1938.

A. ROSEN (CONT'D)

As an administrator I would rate him as "Good"; as an investigator as "Good" and as a salesman as "Fair".

H. E. SCOTT

This employee has enthusiasm, but needs experience. He is rather jumpy in expression and in his thought processes. He has determination and force.

As an administrator, I believe he would be "Good"; as an investigator "Good" and as a salesman "Fair".

D. O. SMITH

This employee is by type a Chief Clerk with a Chief Clerk's complex. He would likely become involved in handling a mass of detail and get lost in this mass. He very likely would have considerable difficulty in handling administrative work and he is lacking in qualities of forcefulness to such an extent that I think he would not create a forceful impression.

As an administrator I would rate him as "Fair"; as an investigator as "Good" and as a salesman as "Unsatisfactory".

J. D. SWENSON

I think this employee is a rather sound and substantial individual as far as judgment is concerned, but not particularly impressive as to force.

As an administrator I would rate him as "Good"; as an investigator as "Fair" and as a salesman "Good".

P. WYLY

This employee makes an excellent personal appearance; has a good personality and is improving very rapidly. He handles a firearms training line with intelligence and force.

As an administrator I would rate him as "Good"; as an investigator as "Fair" and as a salesman as "Good".

Respectfully,

H. H. Clegg.

I wish to make the statement that I am placing Special Agent M. E. Gurnea at the head of the list both for marksmanship and ability to instruct others, even though he was not in attendance at Quantico, Virginia during the period of firearms training afforded the members of the Administrative School now in session. Having worked with and observed Special Agent Gurnea in the past, it is the opinion of the writer that he is surely deserving of heading this list.

Honorable J. Edgar Hoover,

Dear Mr. Hoover:

Permit me at this time to express my sincere appreciation for your kindness in sending Mr. John McGuire as the speaker of the evening before the Clemson College Alumni Association of Washington, D. C., at its monthly meeting last evening. All of the members of the Association present indicated their attention and also by their expressions after the meeting that they thoroughly enjoyed the excellent talk given by Mr. McGuire.

I have always sincerely believed that you are doing an outstanding work and accomplishing many seemingly impossible hurdles in your crusade against crime, and I believe that with the type of publicity given last night it will awaken the public to their duty as law-abiding citizens. I, of course, am somewhat familiar with your Bureau, however, the majority of those present last night for the first time heard a brief resume' as to the functions of your Bureau, and it was certainly appreciated.

Thank you again for your courtesy and cooperation in the above matter.

Sincerely,

My Dear Mr. Hoover,

I am highly pleased to inform you that your Mr. J. J. Maguire whom you assigned to address the Connery Associates in Lynn, Mass. April 4th, was indeed a most inspiring speaker. He talked for one hour and a quarter and held his audience so well that you could have heard a pin drop. I want to take this opportunity to thank you for your kind consideration in sending Mr. Maguire to us and I trust that he will report favorably to you on his reception in Lynn.

Last November I was in Washington when Congress opened and Congressman Connery arranged thru you to have me visit your office along with several others. I was so impressed at that time that I wrote the Congressman asking him to use his influence with you to obtain a representative of your organization to address us. We did not expect to have a man direct from headquarters, so you can be sure that your affection for Billy Connery and his brother Larry was deeply appreciated by all of us here in Lynn.

Mr. Maguire's photograph which I used to good advantage in our local papers is still in my possession. If I am not asking too much I would like to keep it in memory of the occasion.

Again thanking you and hoping that I may meet you personally on my next visit to Washington, I wish to remain,

Dear Mr. Hoover:

Mr. J. J. McGuire, whom you assigned to us in the place of Mr. Dawsey, made a most favorable impression on every group that he addressed in North East Pennsylvania. His remarks were not only interesting but highly instructive.

I do not see how anyone who heard him could escape the conviction that all of us should have a share in maintaining law and order. I believe that all of us need more education along the lines you represent in this connection and certainly Mr. McGuire left a favorable deposit in the minds of those who heard him in this regard.

When I left Mr. McGuire on Wednesday afternoon, we estimated that he had already addressed about 3000 people. I do not know what his count was of the additional meetings he appeared before.

Please be assured that we are deeply grateful to you for your cooperation in this matter.

Dear Edgar:

I want to thank you deeply and sincerely  
for your very great kindness in assigning Mr. J. J.  
McGuire to speak before the Connery Associates early  
this month.

I have waited until I had a complete report  
from my home districts before writing you and now  
I am only too happy to tell you that Mr. McGuire's  
talk was received with real enthusiasm. There is  
absolutely no doubt but that he created a fine im-  
pression and thereby made many new friends for the  
F.B.I.

Naturally, I too was delighted and I want  
you to know how sincerely grateful I am for your very  
great interest.

With kindest regards, I am,

Sincerely,

/s/ Lawrence J. Connery, M.C.

While conducting the inspection of the Miami office, I had opportunity of speaking with a number of law enforcement officers in the State of Florida.

I also had opportunity of discussing personal matters with officers at Jacksonville, Florida. I received numerous comments concerning the appearance of Special Agent McGuire, of the Research Division, before the Florida State Sheriff's Association at Jacksonville, Florida on March 29, 1938. Special Agent Alt advised me that McGuire went over 100% and his talk was well taken, manner of deliverance excellent, and the members of the Association were high in their commendation of McGuire. I thought you would like to know this.

Dear Sir:

I attended the meeting of The Steel Club of Baltimore, at the Lord Baltimore Hotel, last Friday evening, and had the pleasure of hearing Mr. J. J. McQuire, of your department.

His address was, I believe, the most interesting of any I have heard at our Club meetings. Mr. McQuire gave a very vivid picture of your department, and I am sure opened the eyes of many of us as to your accomplishments, under very trying difficulties.

I feel that Mr. McQuire is to be complimented on his fine presentation, and I congratulate your Bureau on having men of his caliber and unquestionable ability. Very frequently speakers at club meetings are rather dull and boring, but it was a very refreshing experience to hear Mr. McQuire.

I hope at sometime he will make an address in Washington, and that some of my friends can have the opportunity of hearing him.

With best wishes, I remain,

Very truly yours,

REMARKS

Mr. Nichols advises that this Agent has continued to develop during the last rating period, has acquired considerably more aggressiveness, satisfactorily discharges all duties assigned to him and it is believed that with his industry, initiative, good knowledge of the Bureau's work, his loyalty, he has a very definite future in the Bureau service; that he still needs to acquire a little more aggressiveness; that he is a good salesman and has satisfactorily represented the Bureau in making numerous public addresses; that he has discharged the duties of Supervisor in charge of the Research Division for brief periods in Mr. Nichols' absence in a satisfactory manner; that he has definite administrative ability and with further development, will be able to discharge any duties assigned to him within the realm of his experience.

On May 4, 1938, Mr. W. R. Glavin commented upon the excellent manner in which this Agent handled the speaking engagement before the Florida State Sheriffs' Association of Jacksonville, Florida, on March 29, 1938.

On February 14, 1938, this Agent received a composite rating of 11 out of 14 in the recent administrative training school.

Mr. H. H. Clegg advised that this employee is rather lean and lanky but has latent ability which is not yet developed to justify his designation as an SAC; that he makes an unfavorable first impression due to his appearance; that as an administrator, he would rate him as Fair; as an investigator, Good and as a salesman, Unsatisfactory.

INDEXED  
100-53404-95

Mr. E. A. Tamm, on February 14, 1938, rated this Agent 10 out of 14 as to his relative possibilities as SAC material.

Mr. W. R. Walsh rated this Agent 13 out of 14 in ability to control, direct and instruct others and 10 out of 14 as to ability in marksmanship. Mr. I. E. Nitschke rated this Agent 12 out of 14 in ability to control, direct and instruct others and 10 out of 14 as to his ability in marksmanship.

On December 28, 1937, Mr. H. H. Clegg advised that this young man made a rather favorable impression; that he is new as a supervisor in the Bureau yet he has some opinions of his own which were sound and his interest was of a desirable type; that so far as his personal qualifications are concerned, Mr. Clegg thinks that quite a bit of improvement can be expected with additional maturity and experience and that his personality is not of the best type.

On December 17, 1938, Mr. W. H. D. Lester advised that he had not had an opportunity to observe this supervisor in action in making contacts but he does not believe, from his personal observation, that he could give a very good talk; that he is not recommended as a contact man for national law enforcement conventions.

A review of this Agent's file indicates he has received innumerable commendatory statements in regard to his speaking engagements.

Average overtime per day for this employee, 5 hours, 42 minutes.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Agent McGuire has continued to develop in the last rating period and has acquired considerably more aggressiveness since his assignment here. He has satisfactorily discharged all duties assigned to him and it is believed that with his industry, initiative, good knowledge of the Bureau's work and loyalty, he has a very definite future in the Bureau's service. He still needs to acquire a little more self-reliance and a little more aggressiveness - in other words make people with whom he comes in contact actually feel that he is as enthusiastic as he inwardly is.

Agent McGuire is a good salesman and has satisfactorily represented the Bureau in making numerous public addresses and has likewise discharged the duties of Supervisor in Charge in brief periods during my absence.

I would say that he has definite administrative ability and that with further development he will be able to discharge any duties assigned to him within the realm of his experience.

Have the contents of this report under the heading "Remarks" been read in full to the employee to whom they relate, and has the employee been informed as to the status reflected on the reverse side of this report? Yes

Pursuant to Miss Gandy's request this afternoon relative to the preparation of the letter dated June 9, 1938, to Mr. Joseph Kluchesky, Chief of Police, Milwaukee, Wisconsin, I wish to advise that the file on Bureau correspondence with Dr. E. Stagg Whitin, Chairman, Executive Committee, National Committee on Prisons and Prison Labor, New York, New York, was checked preparatory to the dictation of the letter to Mr. Kluchesky at which time it was noted that the file did not contain the report of any express approval on the Director's part of the Parole Conference referred to in Mr. Kluchesky's letter.

It is noted that while Dr. Whitin apparently saw the Director on May 30, 1938, according to the notation placed on Dr. Whitin's letter of March 25, 1938, the Bureau requested the New York City Office to obtain detailed information concerning Dr. Whitin. In view of Dr. Whitin's letter of April 29, 1938, it is apparent that the Director discussed the Parole Conference with Dr. Whitin on some prior occasion -- although the files do not contain any reference to that discussion nor any indication that the project had been approved by the Bureau.

It is regretted that the phraseology used in the letter to Mr. Kluchesky was not more wisely chosen and I assure you definite steps will be taken in the future to prevent the recurrence of this instance.

Respectfully submitted,

Dear Father Dempsey:

Upon my return to Washington, your letter of September 21, 1938, was received by me, and I want you to know that I deeply appreciate your approbation of my addresses recently forwarded to you, and I am complimented to note that you intend to quote parts of my addresses in some of your future talks before service organizations.

I was pleased to note in your letter your interest in boy-group guidance, as I too have long felt the necessity of properly training the youth of America in an effort to alleviate the terrible crime condition existent in this country today.

It is indeed encouraging to feel that such outstanding citizens as you are interested in my efforts as Director of the Federal Bureau of Investigation and the work performed by the members of our Bureau. You may be assured that your staunch support is a vital and sustaining factor to me.

I was happy to learn of the cordial reception by the Newman Club Federation Convention of the speech to Mr. J. J. McGuire, one of my Administrative Assistants, before that club on September 3, 1938. I know that Mr. McGuire enjoyed the opportunity of addressing this group.

I am grateful more than I can express in words for your kindness in bestowing your blessings upon me and in wishing me years of future service to my country. At any time in the future this Bureau can be of any assistance to you, I would consider it a pleasure if you would call upon me.

With kindest personal regards,

Sincerely yours,

Dear Mr. Hoover:

Thank you for your kindness in forwarding your addresses and the other information, contained in the quarterly reports. I am especially grateful for the material in the addresses, which I am taking the liberty to quote in future talks before service organizations, and similar groups in this area. My interest is primarily in boy-group guidance, and your reports will be most helpful in stressing the necessity of moral and religious training in our youth, as the most powerful means of combatting crime today.

Allow me to take this opportunity to congratulate you personally, and commend your entire organization for the splendid work you are doing in our Country today. It is encouraging to know that your efforts are being expended, where they are needed most, and that you are not merely trying to apprehend the criminal, but are so zealous in curbing crime by attacking and destroying it's sources - Your American Legion address very clearly emphasizes this point.

I am most delighted and honored to receive your publications, and hope that I may be able to aid your work in some small way, by the use of this material. It is always a pleasure to hear from you, and I hope to have the pleasure of meeting you in the near future.

May I, at this time, also commend the excellent address given at the Newman Club Federation Convention by your Mr. John J. McGuire - it was most enthusiastically received by the delegates.

May God bless you with many more years of service to our Country and our Youth - and with every choice blessing & with every best wish - and kindest personal regards.

Sincerely yours

While talking with Mr. McGuire of the Department he inquired if there was a John McGuire working in the Bureau. I told him I was quite sure there was and that I would have John McGuire call him.

4:25 P. M.

McGuire of the Department called back and stated he thought John McGuire was a graduate of the same institution of which he was and he wanted him to attend a gathering that evening. I told him John McGuire was out of town at the time but that I would have him call him when he returned.

CLARION-VENANGO COUNCIL

February 10, 1939

Mr. J. Edgar Hoover, Chief  
Department of Justice,  
Washington, D. C.

Dear Mr. Hoover:

The men who have been responsible for our Scout activities during the past week asked me to express to you their gratitude for great general interest in Scouting and youth and particularly for the fine contribution you made to our meeting in Franklin in sending your fine assistant Mr. McGuire. It is a pleasure to report to you that Mr. McGuire gave an excellent account of himself at each of three speaking engagements on Thursday afternoon and evening and made new friends for himself and your department in the personal contacts possible during a very full and heavy day.

In so many ways Mr. McGuire demonstrated the thorough gentlemen he is by the many little, kind and thoughtful acts. We all feel deeply indebted to both Mr. McGuire and yourself.

I had expected to take up this matter with Mr. McGuire but in the deluge of trying to keep the program functioning overlooked this. Would it be to great an imposition on you and Mr. McGuire to have you and Mr. McGuire personally autograph merit badge certificates for the boys of our council who pass this test prior to June 1st this year. I feel that we have all imposed upon your good nature and assure you that we will not feel other than friendly should you decline this last request.

With reference to the Director's memorandum of March 13, 1939, I desire to advise that it was not possible for me to take the monthly indoor firearms training on March 16, 1939, due to several matters of an expeditious nature on which I was working.

I would like to recommend that Special Agent W. A. ACERS, presently assigned to the Detroit Division, be transferred to Washington and detailed to the duties in the Crime Records Section now being performed by Special Agent J. J. McGuire, Jr., Mr. Nichols' Assistant. I believe Mr. Acers ~~could assume~~ some of Mr. Nichols' responsibilities which are particularly heavy.

I suggest that Special Agent McGuire be detailed to the next FBI NPA session as a monitor and if he is reported upon favorably by Mr. Clegg during the school that he be assigned to replace Special Agent N. H. McCabe, who is presently detailed to the Crime Records Section in the handling of FBI NPA associates correspondence and contacts. I think Mr. McGuire would be well fitted for this work at the end of a period of three months with an academy school.

With reference to the attached efficiency rating, it is noted that Mr. Laughlin recommends no increase in salary due to the fact that Special Agent McGuire is in Grade CAF 11 on the Seat of Government payroll which would prohibit him from receiving an increase for the reason that any increase would exceed the average in the grade.

In view of the fact that McGuire is presently assigned as monitor in the National Police Academy, it is my recommendation that he be removed from the Seat of Government rolls and placed on the field payroll. I further recommend that he be granted a \$200 increase at that time.

REMARKS

Mr. Nichols advises that this agent has a good knowledge of the work in the Crime Records Section; is well grounded in Bureau policy; uses good judgment; can think for himself and is becoming more aggressive. It is reported that he is interested in all of his assignments but at times could handle them with more dispatch. Mr. Nichols believes that for a period of several months during the winter this agent was not in the best of physical condition due to colds which could not help but be reflected in his work. Mr. Nichols states that this agent has a pleasing personality; represents the Bureau well, and he considers him dependable, loyal, and a definite asset. This agent's file reflects that he has made several public appearances for the Bureau during the rating period and his talks have been favorably received.

RECOMMENDATION: No recommendation for an increase in salary is made inasmuch as no increases can be afforded employees in Grade Cap 11 on the Seat of Government payroll.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Mr. McGuire has a good knowledge of the work of this section and is well grounded in Bureau policy. He uses good judgment and is able to think for himself. He has become much more aggressive in the past year although he can continue to improve.

Mr. McGuire appears to be interested in each of his assignments although at times he could handle them with more dispatch. I am inclined to believe that for a period of several months beginning in the winter that Mr. McGuire was not in the best of physical condition and was susceptible to colds which could not help but be a reflection on his work. Mr. McGuire has a pleasing personality and represents the Bureau well. I consider him dependable and loyal and a definite asset to the Bureau.

Dear Mr. McGuire:

I want to take this occasion to express to you my sincere appreciation for your faithful and tireless efforts in helping to make successful the Reunion and Retraining Course of the FBI National Police Academy Associates. I realize that there were many difficulties and problems which you were required to handle with tact and discretion. The fact that you were able to do so without relaxing in your vigilance and at the same time make the stay of the Associates a pleasant one was no small contribution to the success of the program.

MEMORANDUM FOR THE DIRECTOR

With reference to the attached memorandum of June 14th from Mr. Clegg recommending that a Supervisor be designated to personally contact FBI NPA graduates, with a view to being of assistance to them, I believe that this is a function which properly should be handled by the Supervisor in Mr. Nichols' office who is assigned the handling of correspondence pertaining to the graduates.

As I recently advised you, Special Agent J. J. McGuire is presently assigned to the FBI NPA session as a Monitor. It is planned upon the conclusion of the school to assign him to the supervisory duties in Mr. Nichols' office which are now being handled by Special Agent McCabe. I note that Mr. McGuire is one of the men recommended by Mr. Clegg for this particular work and I think he would be well qualified as a contact with academy graduates. I further believe that he can perform this work in addition to the desk work which he will be required to perform in Mr. Nichols' section.

It is accordingly recommended that Mr. Clegg afford Mr. McGuire the necessary instruction in the Training Division so that he may be equipped to handle this added assignment.

Respectfully

Clyde Tolson

MEMORANDUM FOR THE DIRECTOR

Reference is made to the attached memorandum concerning the suggestion set forth in my memorandum of June 1, 1939, that a Bureau representative be designated to visit and work with graduates of the FBI National Police Academy and to perform such other duties as helping in night training schools; in teaching schools; to serve as a trouble-shooter when graduates of the Police Academy seem to be suffering from some adversity or persecution.

It is observed that Mr. McGuire, assigned to Mr. Nichols' office, is to be designated for this position. It is further observed that Mr. McGuire is being designated to handle the work presently assigned to Mr. McCabe in Mr. Nichols' office. Naturally, in my opinion, both jobs cannot be done by one man. With more than 300 graduates of the Police Academy to date even a one day visit to a graduate once a year would take up the time of one man. To assign him other duties in Washington that he would be expected to handle would, in my opinion, completely lose the effect of the suggested appointment of someone to act as personal contact with graduates of the Police Academy.

Respectfully,

H. E. Clegg

MEMORANDUM FOR MR. TOLSON

RE: JOHN J. McGUIRE  
Special Agent

I talked with this man today, although I have known him in Washington for some little time. I am favorably impressed. He seems to be very definitely energetic and is enthusiastic par excellence. I gained the impression that some of his enthusiasm, or outward semblance of it, is an act. However, he does it well and if he continues to evidence it it will become a part of himself in time. He shows evidence of being extremely interested in the work of the Bureau and appears to me to be intelligent. I believe he is worth trying as an Agent in Charge of a comparatively small office.

Very truly yours,

H. Nathan

Mr. McGuire is presently under assignment to attend the administrative retraining school. He has been assigned to the Seat of Government since October 24, 1937 in the Crime Records Division. He is single, is 30 years of age and his mother resides with him in Washington. He entered the Bureau as a Special Agent on October 7, 1935. For approximately two months prior to coming to Washington he had Number One Man experience at Richmond, Virginia. He has made a number of public addresses for the Bureau and has done some lecturing before new Agents. He has investigated almost all types of cases but has had only limited experience in handling bankruptcy work. He has completed only three lessons of the accounting course. He is 6 feet 3 3/4 inches in height and is underweight. He states this is a chronic condition and that he is attempting to gain weight but is having difficulty in doing so. He holds AB and LLB degrees and is a member of the New York State Bar.

Mr. McGuire makes a good personal appearance. He is inclined to be a little effervescent but I believe he is a good prospect for trial as an Acting Special Agent in Charge. If he is not selected for one of the new offices as a result of his attendance at the administrative retraining school, I think he should be given experience as a Number One Man in a rather large Bureau office.

- MR. LOGAN - I do not believe Special Agent J. J. McGuire is qualified to handle firearms training in the capacity of SAC at the present time; however, with additional training in firearms I believe he can qualify. He is too polished to handle a great many types of people and I believe he would have difficulty in handling old Special Agents.
- MR. ESPEY - I am of the opinion this Agent is not qualified to handle firearms as SAC for the following reasons:
- (1) Inexperience
  - (2) Limited knowledge and ability to impart his knowledge to others at this time.
  - (3) Appears young and lacks confidence in his own self in respect to teaching firearms training.
- MR. NITSCHKE - I would question his ability to handle older Special Agents due to inexperience. General knowledge of Bureau firearms only fair - not good enough to instruct others.

Respectfully,

MEMORANDUM FOR THE DIRECTOR

Re: J. J. McGuire,  
Administrative School.

It is noted that Messrs. Espey, Logan and Nitschke do not believe McGuire is qualified to handle firearms training in the capacity of Special Agent in Charge. This is due primarily to his lack of experience and knowledge. This is perhaps the first firearms training of this type this Agent has been given, outside of regular monthly requirements of field offices and In-Service schools.

I definitely believe that McGuire is material for serious consideration for the position of Special Agent in Charge and I recommend he be permitted to remain in Washington to take administrative training for the additional two days.

Respectfully,

Dear Sir:

I am very much disturbed concerning your failure to comply with my instructions of August 17, 1939, relative to completing the Bureau's accounting course by December 31, 1939.

It is essential that Special Agents in Charge have a working knowledge of the principles of accounting in order to be able to intelligently discuss with subordinates the results of accounting investigations, and your failure to complete the course within the required period indicates a lack of interest on your part.

I desire to reiterate the fact that this course must be completed by you without further delay, and I will expect lessons to be submitted at regular limited intervals in the future until this course has been completed. It is not my intention to accept additional excuses for your failure to complete the required number of lessons.

Very truly yours,

Re: INSPECTOR THOMAS RYAN  
BUFFALO POLICE DEPARTMENT.

Dear Sir:

While in Buffalo recently, I contacted Inspector THOMAS RYAN of the local police department, a graduate of the FBI National Police Academy. Definite arrangements were made for me to have luncheon with him and with Special Agent in Charge J. J. McGuire but, at the last minute, he had to go out of town on a matter and was unable to have lunch with SAC McGuire and me. However, I had a long visit with him prior to that time.

Inspector Ryan stated he wanted me to inform you how much he appreciated the help you gave him when he was being considered for the inspectorship in the Police Department which he has since received. He stated that he realized that he would not have gotten this promotion had it not been for your kind efforts; that he knew at least one other man would be given preference over him, but that you assured him when he called the matter to your attention, that you would get busy at once and that he had since realized you had contacted your good personal friend, MR. EDWARD BUTLER, publisher of the Buffalo Evening News and that Mr. Butler, through editorial comments and articles, had undoubtedly influenced the city officials relative to securing Ryan's appointment to an inspectorship. He said that he had not written to you but wanted you to know that he appreciated this more than he could tell you. He was assured that this information would be given you by me.

While together, at his request, I assisted him in preparing a talk that he was to give before a group of citizens, stressing your ideas concerning juvenile crime and crime prevention methods, and also went over some notes of a talk he was to give before a police training school.

I sounded him out on his opinion of Special Agent in Charge J. J. McGuire and he stated that McGuire was making a splendid record and, in his opinion, was probably the best Agent in Charge who had yet come to the Buffalo office. To substantiate this opinion, he pointed out that McGuire's broadcasts had been well received, to Ryan's personal knowledge, and a short talk by Agent in Charge McGuire before the Desk Lieutenants of the Buffalo Police Department had been unusually well received, comments having been made

by the Desk Lieutenants to the effect that McGuire was a "real law enforcement officer". He added also that he thought McGuire was well liked by all local officials and was impressive in appearance and actions. He stated further that, while he liked former Special Agent in Charge V. W. McLaughlin, he realized that McLaughlin lacked the finesse and polish usually found in a Special Agent in Charge of the Bureau and that it was his personal opinion that McLaughlin made the mistake of assuming a superior attitude on certain occasions in an effort to hide an inferiority complex which Ryan felt he possessed.

These opinions were expressed by Ryan as a result of questions from me, but freely of his own volition and I told him you would appreciate having his ideas in this connection.

He asked to be remembered to you and Mr. Clegg.

He broached the possibility of the FBI NATIONAL POLICE ASSOCIATES publishing a small paper of their own sometime in the future. I did not know your desires along this line and pointed out to him that this was being accomplished at the present time by a section in The Investigator and that similar data was included in the FBI LAW ENFORCEMENT BULLETIN. He stated that this was fine but that his idea was to have a small publication dealing more with administrative activities of the FBI National Police Academy Graduates and their respective departments.

I suggested to him that he submit his ideas to you in writing in detail and he indicated that he would take no action along these lines until he had written you and got your ideas concerning the feasibility of such a publication.

Frankly, I believe such a publication to be undesirable at the present time and do not think it would be a success.

Sincerely yours,

W. H. DRANE LESTER

Re: Plant Protection Manual  
Suggestions for Improvement.

Dear Sir:

Reference is made to Bureau Bulletin No. 48, second series 1939, dated December 15, 1939, calling for suggestions for improvement in the Bureau's manual on Plant Protection. The following suggestions and comments are made, which it is hoped might be of assistance in improving the present manual utilized in connection with plant survey work.

Under Part One of the Survey of Plant Equipment and Personnel, sub-heading B, Employees, it is suggested that numbers 6 and 7 be consolidated. In number 9 it is suggested that the word "alien" be eliminated in order to include precautions against sabotage by all employees. In number 10 it is suggested that the Bureau afford an explanation of this question and its purposes. It is particularly desired that the word "foreign" be explained in order that it may be determined whether this means foreign born or foreign descent.

Under sub-heading C, Handling of Plant Business, #3 it is suggested that the requirement for a description in general terms of the type of contracts executed with Government agencies be explained. It will be noted that other questions in the plant protection manual elicit information relative to the total value of government contracts at the plant, the place at which the government takes title to the finished product, and the specific articles manufactured under contract for the government. In view of these specific questions it is desired to know what exactly is desired in answer to question C-3.

It is also requested that the Field be advised with reference to all phases of plant protection work; whether the word "Government" or "Government Agencies" apply to merely the War and Navy Departments or to all departments or any branches of the Government for which any particular plant may be doing work.

As to #4 it is suggested that this be consolidated with #10 under section B, Precautionary Measures and Protective Devices. It is believed

Buffalo, N. Y.  
March 4, 1940

that this will simplify the getting of information by the agent and will set up the report in more logical fashion.

As to question #6, it is suggested that this can be eliminated. The reason is that as set out on page 13 of the plant protection manual, the report will contain in its first part a statement of the product manufactured by the plant and the specific articles being manufactured for the Government. It therefore seems that question C-6 should be eliminated unless it requires different information from #6 and #7 on page 13. If the latter is the case, it is suggested that the exact information required for C-6 be explained in more detail.

C-13. It is suggested that the Manual explain whether or not the full capacity as to output of the plant being surveyed refers to output on Government contracts only or on all products of the plant or whether it applies to war time full capacity or peace time full capacity.

C-14. It is suggested that this be consolidated with #E-70 appearing on page 12.

As to question C-16, it is suggested that this be consolidated with question E-69 appearing on page 12.

C-17. It is suggested that this question should be included under the heading "B, Employees". This is recommended because it is the type of information which would normally be obtained from a personnel manager who would be interviewed relative to sub-heading "B", whereas information under sub-heading "C" would normally come from some higher official.

C-18. It is suggested that there be an added requirement in this question in order that the report may show which sources of materials are exclusive.

C-20. It is suggested that the Bureau explain what is meant by "plant units". It may be interpreted as divisions of the corporation, buildings in the plant, or sections of separate buildings.

C-21. It is suggested that the Bureau advise the purpose for describing the processes carried on during the night shift if different from those during the day shift. It will be observed that there are no questions in the plant protection manual calling for a description of the processes carried on during the day shift.

Buffalo, N. Y.  
March 4, 1940

Sub-heading D, Physical Description of the Plant. In order to simplify and render more logical the writing of a plant protection report, it is suggested that numbers 1, 2, 3, 5 and 7 be consolidated. It is believed that the information called for under these headings can be logically grouped under a request for a complete description of the plant.

D-4. It is suggested that the Bureau be asked to advise the purpose of this question.

E. Precautionary Measures and Protective Devices.

E-1. It is suggested that the Bureau furnish a full explanation of the meaning of this question. A complete discussion between agents who have had plant protection training has failed to produce any agreement between any two agents as to what this means.

E-5 and 6. Inasmuch as these questions are on practically the identical point, it is suggested that they be consolidated.

E-17. It is suggested that this be included under D-1, the complete description of the plant.

E-18. It is suggested that this be consolidated with C-14, the question pertaining to types of power used.

E-22. It is suggested that the Bureau advise by what standards the surveying agent can determine where fire doors and shutters are needed.

E-44. It is suggested the Bureau advise under what circumstances unprotected window openings constitute a fire hazard.

E-46. It is suggested that the Bureau advise what types of unnecessary concealed spaces might prove fire hazards and what standard the surveying agent may use in determining this point.

E-48. It is suggested the Bureau advise how temporary (or permanent) partitions and enclosures increase a fire hazard and by what standards may this be determined.

E-65. It is suggested the Bureau advise what type of vents should be provided. Must there be a fan system or will an opening in the wall or ceiling or merely a window opening suffice?

#4.  
Plant Protection Manual

Buffalo, N. Y.  
March 4, 1940

E-67. It is suggested that this be combined with E-31.

E-68. It is suggested that this be consolidated with question  
D-6.

D-72. It is suggested that this be consolidated with D-5 or  
D-1 if the suggestion hereinbefore set out relative to the consolidation  
of D-5 be approved.

Respectfully submitted,

Dear Sir:

With regard to the recent "smear" of F.B.I. activities, I wish to advise that I have heard nothing but wholehearted commendation accorded the Director's leadership and record of achievement as a result of the criticisms leveled at the Bureau.

The press at Rochester, Jamestown, Canisteo, and Buffalo have upheld the Bureau and the Director in editorial comment and by cartoon, all clippings of which have previously been furnished to the seat of Government, the only exception being the Buffalo Courier Express which published an editorial on the Bureau that assumed a middle-of-the-road, noncommittal course. However, the Director's reply to that editorial was published subsequently in detail.

It appears to be unanimously recognized by the citizens in this area who have expressed their opinions not only to the writer but to other Agents of this office who have been making a number of public addresses and contacts, that the entire "smear" campaign is aimed at the Director himself, and as a second recourse, at the activities of the Bureau with the hope of discrediting the Director as a personality and an aggressive leader.

It is the writer's desire to be of every assistance in counteracting the malicious slanderings by the Bureau's critics, not only officially but in any private personal capacity which the Director may feel confident to entrust to me.

Re: BUFFALO FIELD OFFICE

Dear Sir:

While engaged in other official business in the Buffalo Field Division recently, I took as much time as possible to look over the Buffalo Field Office. The general setup of the office is good, with the Special Agent in Charge's office and the Conference Rooms especially well arranged.

However, the Stenographers' office and the Special Agents' Office do not look as neat and businesslike as they might. This is due primarily to the fact that the desks of the Special Agents and the desks of the Stenographers are very much battered and dilapidated looking. The tops of the desks are noticeably scarred and marked from several movings, I understand, and all of the desks, I believe are more than six years of age. They are not entirely compatible with the other neat equipment of the office. This is not intended as a criticism of the general office arrangement in the Special Agents' and Stenographers' offices, but of the poor condition of the desks and, if possible, I recommend that all of the stenographers' desks and Special Agents' desks be replaced. The desks in the Special Agents in Charge office and the Conference Room are newer, very neat and business-like looking.

In one of the smaller conference rooms is an old, large office rug, which detracts considerably from the otherwise neat appearance of that particular office. It has either moisture or sunlight stains all over it. The nap is worn down and it presents a very poor appearance. It is my recommendation that this rug should either be replaced or done away with entirely.

In this connection, Special Agent in Charge J. J. McGuire has recently arranged with the Superintendent of the Building to wax the floors of the office every so often, which was done during my stay there, and this adds to the general neatness of the entire office space.

The detention room was in good shape, as well as the supply room, and the gun vaults. The office is supplied with an unusually large amount of steel cabinets, similar to supply or clothes cabinets at the Seat of Government and most of the supplies are neatly arranged in these cabinets inside the supply room.

While in the Buffalo Field Division, I talked to several of the Special Agents and all of the clerical employees and got their ideas concerning various matters in the office.

MISS LETTY DILKEY, Stenographer of that office, pointed out that the absence of the Chief Clerk, MISS ANNE PELTON, and another stenographer had caused some of the clerical work to get into a "snarl" but she felt it might be straightened out since Miss Pelton had returned and since the hiring of another stenographer is contemplated. She stated that she was very much impressed by Special Agent in Charge J. J. McGuire and the manner in which he took hold of the office, which was in contrast with the general attitude of former SAC McLaughlin. She gave it as her opinion that Mr. McGuire is very efficient and well liked by the entire office personnel but that he had not had much chance to make any changes in the administrative or executive setup or handling of office details. She stated he had worked very hard, late at night, and that, in her opinion, he should take it a little more easily at least for a few weeks. She stated also that he was very pleasant to deal with and very firm. It was her idea that the transfer of the Albany files to the newly opened office had taken considerable of his time. She also called attention to the fact that it was quite a job to get adequate clerical help in the Buffalo district and gave it as her opinion that the office needed at least one more stenographer which, she understood, was being obtained or possibly one Stenographer and a Typist, or a total of two more stenographers.

MR. ROBERT E. PRATHER, Stenographer, Buffalo Field Division, who has been with the Bureau only ten months, stated that he noticed a marked difference between Special Agent in Charge J. J. McGuire, and former Special Agent in Charge McLaughlin and that, while he at first thought Mr. McGuire was a little too strict as a disciplinarian, he had realized that this was not true and that McGuire was exceedingly efficient and pleasant to deal with, simply requiring certain necessary things of the clerical employees that McLaughlin had not required. He described him as very capable and attributed what he termed a "jam" in the Agents' dictation to the fact that the Chief Clerk had been out of the office for about two months and that another stenographer had been away also. He believes that the office needs at least one more stenographer and might possibly use a typist to assist the Chief Clerk in her duties. Both Mr. Prather and Miss Pelton stated they did not think the present scheme of having the agents dictate after hours was successful in the Buffalo office since the agents were often tired, and both of them stated that they noticed that the dictation of the agents after hours was not nearly as efficient or thorough as it had been in the past. It was their opinion, although they both stated that the figures for the office would bring this out, that probably the agents did not get off nearly as much dictation by the new method as under the old.

They both made it clear that they were not complaining of this system, simply pointing out their ideas concerning it.

Miss Dilkey and Miss Mary M. Stone, Stenographer of the Buffalo office, stated practically the same thing.

MISS ANNE PELTON, Chief Clerk and Stenographer, Buffalo Field Division, stated she could use assistance and that if she had some assistance, for instance, from a typist, in the handling of the Chief Clerk's duties, she could do more stenographic work than she now does, which she would like to do, if possible. She stated that, it was her opinion that possibly two stenographers were needed, including the one she understands, is to be hired shortly, or one stenographer and one typist might suffice. When it was pointed out that some of the agents had been transferred to the Albany district and many of the cases had been moved, she stated that once the office was caught up, it was possible that, with one additional clerical employee, the clerical force would be able to do the job efficiently.

She spoke very highly of Special Agent in Charge J. J. McGuire and stated that, although she had only been back to the Buffalo office for a few days, he impressed her as a good administrator and executive, and was extremely efficient.

Miss Mary M. Stone, Stenographer, as set out above, indicated that the agents were too tired under the present stagger plan of dictation, to dictate as efficiently as in the past and that their dictation was not nearly so good and that the dictation at these hours caused a log jam, upon occasion, some of which was due to the fact that the Chief Clerk was away, assisting at the Albany office, and one stenographer had also been absent. She thought that one additional stenographer and a typist would be needed to clear up the work and to keep it in good shape. She stated that SAC J. J. McGUIRE impressed her as having lots of executive ability, was well liked by the entire office force but was, at the same time, firm in his decisions and instructions, and had had no time to make administrative or executive changes.

It is my opinion that at least one additional stenographer is badly needed in the Buffalo office and I understand from SAC McGUIRE that this stenographer will probably be obtained shortly.

It is my opinion that an additional typist could probably be employed, at least for a temporary period, until the work of the office is caught up and at that time it could be determined whether this additional typist should be kept permanently. Unless further work comes into the office, it is my further opinion that, once the work is caught up, the services of the additional typist could probably be dispensed with.

Letter to Director

Page 4

due to the fact that some of the cases and some of the Special Agents of the Buffalo office were transferred to Albany.

No specific suggestions along the above lines were made to Special Agent in Charge McGuire although I did tell him that I thought the rug in the small conference room, as mentioned above, was an eyesore, and that the stenographers' and agents' desks were well battered and banged up and not in keeping with the otherwise neat general appearance of the office.

Judging from my observation of him and his handling of the Buffalo office, so far, he should make a better than average Special Agent in Charge.

Sincerely yours,

W. H. DRANE LESTER  
INSPECTOR

## BUFFALO HEAD OF FBI GOING TO NEW HAVEN

### Former administrative aide to Hoover to direct newly-or- ganized Connecticut unit

Washington, D. C., July 6 (AP)—J. Edgar Hoover announced today that the Federal Bureau of Investigation would open new field offices in Houston, Tex., and New Haven, Conn., as part of its expanding defense program.

The new offices, together with the reopening of one at San Juan, Puerto Rico, announced last week, brings the total to 53.

Earl L. Richmond will be transferred from Little Rock, Ark., to Houston as special agent in charge on August 1st and John J. McGuire will be transferred from Buffalo, N. Y., to take charge of the New Haven office on July 20th. Their successors have not been chosen.

Agent McGuire took charge of the Buffalo office of the Federal Bureau of Investigation last December.

He was appointed a special agent of the FBI in 1935, and was assigned later to several field divisions. In 1937, he was designated as administrative assistant to Director Hoover.

Since coming here McGuire has directed investigations of activities of subversive elements and against possible saboteurs and espionage agents.

He has been active as a luncheon speaker.

Re: FORMER AGENT IN CHARGE G. A. STEVENS

Dear Sir:

I am attaching hereto the original and four copies of a statement taken today from Agent in Charge McGuire of the New Haven office relative to Agent in Charge STEVENS' conduct at Burlington, Vermont on September 4th and 5th.

Agent in Charge McGuire has made a very honest and fair statement in this connection. While he did not make a proper statement to me after my telephone conversation, nevertheless he did today make a full and what I believe to be an honest statement.

I, therefore, recommend his demotion as an Agent in Charge and a suspension for thirty days for his failure to properly notify the Bureau of the conduct of another Agent in Charge at a convention.

Respectfully,

Statement taken from Special Agent in Charge McGUIRE of the New Haven Field Office at Albany, New York December 16, 1940 by Inspector J. S. EGAN in connection with the conduct of former Special Agent in Charge STEVENS of the Albany office while in attendance at the New England Chiefs of Police convention at Burlington, Vermont on September 4th and 5th.

Q. Mr. McGUIRE, you were in attendance both of the above days at Burlington, Vermont, were you not?

A. Yes, sir, I was.

Q. You observed former Agent in Charge STEVENS on numerous occasions during those two days, did you not?

A. Yes, sir, I did.

Q. During any of those days or nights, was former Agent in Charge STEVENS drunk or conducting himself in such a manner that would be prejudicial to the Bureau?

A. Yes, he was.

Q. Do you care to elaborate on that?

A. Yes, I do. My observations of STEVENS were that he was inattentive to the duties that he should have been performing at the convention in that, first, he did not mingle with the Chiefs of Police in contacting them, second, he was bent on having more personal pleasure and recreation at the convention than on performing official duties, third, that he engaged in drinking to the extent that his overjoviality so clouded his mind that he was, in fact, drunk. In this latter connection, STEVENS was not, as far as I can truthfully recall, overboisterous or noisy or objectionably drunk within the ordinary, accepted meaning of that word, but he was sufficiently drunk to create comment reflecting upon the Bureau. He drank too much for any Bureau representative. Fourth, while at the convention STEVENS was in the company of a woman from the radio station, whose name I do not recall. I saw him with this woman several times in particular; most notably the first occasion was on the first night of the convention, along about one o'clock in the morning, when

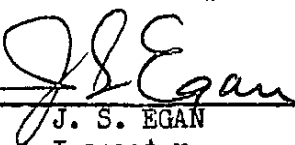

SAC PETERSON, Agent WOOD and several Chiefs and the writer, after standing in front of the Hotel Burlington for approximately an hour and 15 minutes conversing with many of the Chiefs who were also standing out in front, walked up the street to a restaurant on a corner for a cup of coffee, and passing up the street I noticed Agent in Charge STEVENS sitting in the front seat of an automobile with this woman. He was with this same woman again the following night at the banquet, and he left the banquet during the middle of the meal with this woman, apparently going upstairs for a drink in one of the rooms of the hotel. I did not see STEVENS or the woman again up until the time I left for the train at Essex Junction close on to midnight that second night. I did not know where STEVENS and this woman went but they must have been missing from the banquet from about 8:30 P.M. on to approximately midnight when, as indicated, I left the banquet myself.

- Q. Did you discuss this drunkenness on the part of STEVENS or this running around with this Mrs. BERGEN of the radio station with PETERSON or Agent WOOD?
- A. Yes, I did. I discussed this with WOOD, but not with PETERSON. I remarked to Agent WOOD on the boat on Lake Champlain the second day of the convention that STEVENS was having a time for himself, and again the second night at the banquet, at the time STEVENS left the hall, when I again approached the subject with the remark to Agent WOOD that STEVENS was certainly enjoying his recreation. I had asked Agent WOOD who the woman was, and it was impression from WOOD's reply that this woman was an employee of a radio station where STEVENS had previously given broadcasts and that she was a friend of the Chief at Burlington.
- Q. Did you at any time take up with Agent WOOD the overindulgence in liquor of STEVENS during the convention?
- A. No, I did not. I did not think it appropriate to discuss with the subordinate of STEVENS' own office.
- Q. Did you discuss this with PETERSON?
- A. No, sir, I did not.

- Q. What was your reason for not discussing it with PETERSON?
- A. Frankly, I did not discuss this with PETERSON, first, because I did not know PETERSON well enough, secondly, my impression was that STEVENS' drinking, while sufficiently aggravated for a representative of the Bureau, did not seem to me nearly as over-indulgent as the drinking engaged in by a number of the Chiefs at the convention.
- Q. Were you ashamed as a Bureau representative of the conduct of STEVENS during this convention as to the drinking and running around with this woman?
- A. Yes, sir, I was.
- Q. Did you make any written report or oral report to the Bureau of your attendance at this convention of the New England Chiefs of Police?
- A. No. We had agreed that PETERSON would make the report, because PETERSON had a talk to make up there and the officers that were elected for the coming year and the secretary, who had the minutes of the convention, including resolutions, etc., live in PETERSON's district. For that reason, PETERSON was to make the written report to the Bureau, which he did.
- Q. Don't you think that, in all fairness to the Director and the Bureau, you should have personally reported the conduct of Agent STEVENS to the Director?
- A. I do.
- Q. Have you any explanation to offer why you didn't, as an official of this Bureau?
- A. I have no explanation to offer.
- Q. On Friday, December the 13th I called you at New Haven and I told you that I had made an investigation of former Agent in Charge STEVENS and that I had found that he had been drunk at Burlington on September 4th and 5th, and I asked you to submit a statement in writing, and I told you frankly that, because you have made one mistake, not to make another one, and to give me the facts relative to STEVENS, did I not?
- A. You did.

- Q. Why didn't you in your memorandum to me dated December the 13th tell me the facts as you have today rather than cause me to send for you to New Haven?
- A. The information I gave you was to the best of my recollection, Mr. EGAN, and it is only since being here with you this morning that the real status of the situation has been clear. I have made no attempt, Mr. EGAN, to hide or cover up anyone.
- Q. Did you, after I called you, discuss this with Agent PETERSON before you submitted a memorandum?
- A. I did not, sir.
- Q. Is there any further explanation you desire to make to the Director regarding your not calling to his attention the conduct of Agent STEVENS at Burlington, Vermont in September?
- A. I very much regret, and I frankly admit I have been remiss in reporting this incident. I realize it should have been reported immediately. I realize further that my loyalty to the Bureau demands that such incidents be reported. Should I ever again at any time be permitted, as a representative of the Bureau in any capacity, witness conduct of this nature, I will not hesitate to personally advise the Director.
- Q. Have you been given every opportunity to make a full and complete statement relative to your knowledge of the facts contained herein?
- A. Yes.

MEMORANDUM FOR MR. TOLSON

I today saw Special Agent in Charge McGuire of the New Haven Field Office with reference to the letters which he had mimeographed and sent to 34 banks in his district inquiring concerning the accounts of foreign governments. I told Mr. McGuire that this is the most atrocious blunder this Bureau has ever made. I told him that the investigation of the funds of foreign governments is highly delicate and one of the most confidential items we are working on. I told him that if one of these letters got out, it could bring on war between the United States and any of the governments mentioned, since it would be ample reason to break off diplomatic relations with this country. I told him that the President had entrusted the intelligence work to us because he believed we had the judgment, intelligence and common sense to take care of it diplomatically. I told him that one of the banks had apparently referred the letter to the Chairman of the Federal Reserve Board, who, in turn, had communicated with the Secretary of the Treasury, who, in turn, had communicated with the Bureau. I told him that I had also received calls from the State Department and the White House protesting concerning this.

By way of explanation, Mr. McGuire stated that they only had one day to get the information for the Bureau; that they covered Rhode Island by personal contact. He stated they had over two hundred banks in the State of Connecticut and he had only three Agents to do the type of work. He said that as many banks as they could, they contacted personally. He said he then contacted the State Bankers' Association of Connecticut, who furnished him the list of 34 banks, to which banks he sent the mimeographed form letter.

I told Mr. McGuire that this had been atrociously handled. First, before sending out any such form letter, he should have telephoned the Bureau. I explained to him at length the extremely poor judgment he used in putting such a request in writing. I explained to him how, if the requests had been oral, we would be left with an "out". Second, I told him that in the three months the New Haven Office has been open, he should have made contacts in the banks; that the banks have always been one of our best contacts and he should have had a contact in each city so that he could have called a few key persons in banks who could have furnished us the desired information. I told him of the possibilities which now exist that the letters might get in the hands of the press, or of a group who might use the subject matter as

12

a political issue, or that one of the banks might be controlled by an American citizen of foreign extraction, who might go so far as to turn the information over to a foreign government. I expressed to Mr. McGuire my extreme displeasure over the handling of the entire matter.

Mr. McGuire stated that there have been large demands upon his office and each Agent has been working extremely hard. I told him I do not doubt this for a moment, and, in fact, I have assumed this to be true. I told him, however, I was criticizing him for his lack of evaluation of the things that ought to be done first. I told him we are not judged by how hard we work, but rather by the mistakes we make and what we have not done. I told him that contacts with the banks should have been one of the things he did first when assuming the position of Special Agent in Charge in New Haven. I told him it stands to reason that the bank is the key to the whole picture when you need factual financial evidence; that you can get a tip that a person is a propagandist from his bank records, that is, where the money is coming from, the checks he draws, the deposits that are made on certain dates, and I told him that the banks have always been bulwarks of support, whether we are working on propaganda work or general criminal work.

I told Mr. McGuire that I wanted to know before he left the city how many letters are still outstanding; that I wanted every letter returned to us and I wanted him to telephone long distance immediately and see that this is done. I told him, however, that the possibility still exists that some of the banks might make a photostatic copy of the letter before returning the original to us.

MEMORANDUM FOR MR. TOLSON

Re: C. A. Stevens  
V. A. Peterson  
J. J. McGuire

SAC Stevens, Peterson and McGuire attended the New England Chiefs of Police Association Convention in Burlington, Vermont, on September 4th and 5th. During that period Stevens became intoxicated and was rather loose in his associations with a Mrs. Bergen, an employee of Radio Station WCAI, of Burlington, where he had made several radio transcripts. Initial information came to Inspector Egan through Special Agent F. C. Wood who attended the convention.

SAC Stevens when confronted with the situation has admitted being drunk while attending the convention. He has admitted that there was no excuse for his conduct. He admitted leaving the banquet between 9 or 9:30, prior to its termination and going to the Paragon Restaurant with several officers and several girls, among them being Mrs. Bergen whom he took. He admitted that they went to the restaurant to dance, that they did some drinking, that he came back from the restaurant around midnight, that he, accompanied by Mrs. Bergen, went to a hotel room on the second floor which was used as the Convention Bar, after which Stevens took Mrs. Bergen home between 1 and 1:30. Stevens admits that he was sent to the Convention to associate with police. He further admitted that Mrs. Bergen was on a boat on a tour in connection with the entertainment of the convention at his invitation, that after the boat trip Mrs. Bergen accompanied him to the room on the second floor of the hotel which was maintained as the Convention Bar where he stayed approximately one hour. He admits that Mrs. Bergen is divorced, that his wife knows of her but has not met her. On November 8th SAC Stevens admitted that he went to Burlington to make a speech and to see Chief of Police Thalacker. The speech was on the 12th of November. He admits that he saw Mrs. Bergen on this trip, that he got drunk on the night of November 8th, that he has no explanation for his conduct on this occasion. Stevens admits that he went hunting on the 9th, 10th and 11th and charged per diem for these days (for the Director's information, however, Mr. Stevens' expense account is before me and when he calls at the Bureau tomorrow I shall insist that he correct the items and not charge per diem for these days.). On December 6th Stevens

Memorandum for Mr. Tolson

-2

went to Barton, Vermont and to Burlington and he admits contacting Mrs. Bergen on this trip over the telephone and getting her at the Radio Station. He later took Mrs. Bergen home, en route parking on the Lake Front Drive at Battery Park which is reputedly known as Lover's Lane where he remained parked for about one-half hour. Stevens admits that it was a mistake for him, a married man, to be out with a divorcee.

Upon receiving this information Inspector Egan contacted Special Agents in Charge McGuire and Peterson inasmuch as they were in attendance at the Convention. He told them over the telephone about the facts. He cautioned both to submit memoranda and to be honest and not to make a mistake. Peterson in a five-page memorandum dated December 13th admits being at the Convention. He admits seeing Mrs. Bergen although he does not recall her name. As a matter of fact he arrived too late for the barbecue dinner and accompanied Special Agent Wood, his wife, Mrs. Bergen, SAC Stevens to the Country Club where they had a barbecue dinner, thereafter returning to Burlington by boat. That night he states he saw little of Stevens and the woman. He states that it is his recollection that Stevens, as well as the woman, came to the room of Inspector Gardner on the boat to have a drink. Upon returning to Burlington they went to the hotel and while in front of the hotel Peterson remembered seeing Stevens, another man, who was not a police officer, and the woman enter the hotel. This must have been approximately midnight. He did not see Stevens or the woman again that night.

On that evening Special Agents in Charge McGuire and Peterson spent the night with Special Agent Wood. He saw Stevens the following morning and states that his condition was good. After luncheon the Convention party went to Ausable Chasm via boat. On the ride back Peterson does not recall seeing Stevens or the woman. That evening he attended the banquet. He saw Stevens coming into the banquet hall, apparently looking for someone and may have spoken to him but he does not believe he saw Stevens more than two or three minutes the entire night. Some time during the evening Peterson states he believed it was during intermission he was in the lobby engaged in a conversation with Arthur Thalacker. Some inquiry was made by one of the officers concerning Stevens. Peterson states he believed he asked Thalacker if he had seen Stevens whereupon some comment was made "to the effect that he was having 'a h--- of a time' when someone facetiously remarked that possibly he was up in the hotel room with the blonde. This conversation, however, was to the best of my knowledge all in fun."

Peterson states that to the best of his recollection he does not remember seeing the woman that night. He states that on the night preceding the banquet Stevens gave some indication that he had a few drinks. However, he had control of his faculties and "was certainly not in the category of being drunk." On the night of the banquet Peterson states that his condition was the same as the night before "namely he gave some evidence of having had a few drinks but he could not truthfully state that he indicated the impression of a drunken man. He was not staggering, however he was somewhat talkative." He concludes his memorandum by stating "I certainly did not see any activities which I thought constituted misconduct or I would have immediately reported same to the Bureau."

Mr. Egan called Peterson to Albany today and frankly put the facts up to him. On that occasion Peterson states that Stevens' conduct was that of a man who had sufficient to drink to make him talkative and gave evidence that he was under the influence of liquor but from contact and observations he would say he was not drunk. Peterson stated today to Mr. Egan that he did not see Stevens conduct himself in any such manner as to be prejudicial to the Bureau, that he was not ashamed of the drinking and he did not know that Stevens was running around with the woman. He states he did not report the facts to the Bureau because Stevens was there on official business and he did not see any conduct unbecoming. He did not give any thought to the fact that Stevens might have been spending too much time on personal business and not serving the Bureau's best interest after the banquet. He insists that he would have reported any unethical conduct if he had personally seen Stevens engage in such. He concluded his statement to Mr. Egan by stating that he has tried to be honest and fair, that he knows he has been honest, that he knows that his answers are not what are desired but he is sorry because they are truthful. He insists that he saw very little of Stevens and finally admitted that Stevens was intoxicated to the extent of being talkative but denied that he was drunk. He reiterated again that he was under the influence of liquor to the extent of being talkative but was not drunk.

SAC McGuire at the request of Mr. Egan submitted a memorandum dated December 13th at which time he admitted that he noted Stevens was spending much of his time on the back dance floor with various wives and daughters of the delegates, that when he was not dancing he was in the stateroom which had been set up as a bar by Thalacker, that he was participating in drinking but did not appear at any time to be under the influence of alcohol.

Memorandum for Mr. Tolson

-4

or to be boisterous or unbecoming but that there was no doubt that he appeared to be having a good time. Mr. McGuire states that his only personal reaction was that since the purpose of his being at the Convention was the same as his, that he should have exerted more effort on his part to be out making contacts with the police where he could do the Bureau some good. McGuire states that he mentioned this indirectly to Stevens and the reply was to the effect that only four or five Vermont officials were in attendance and that he already knew them. McGuire admits seeing Mrs. Bergen. However, he does not recall her name. It was his impression that Stevens left the dock when the boat docked at Burlington in Mrs. Bergen's car. McGuire states that SAC Peterson and Agent Wood left the dock just prior to leaving Stevens invited the group up to his room in the hotel for a drink. McGuire admits seeing Stevens at the banquet with Mrs. Bergen sitting at Thalacker's table, that he saw Stevens leaving the banquet hall with a woman but did not see who she was, that Agent Wood made some remark to the effect that they were probably going up for a drink. Mr. McGuire states he did not attach any significance to Stevens spending time with the girl from the radio station, Mrs. Bergen.

Mr. Egan called McGuire to Albany today, pursuant to Bureau instructions. Mr. McGuire very frankly stated that he admits Stevens was drunk, that he observed he was inattentive to duty, that he appeared to be bent on personal pleasures, that while not actually drunk, Stevens was sufficiently so to bring undesirable comment. He states he saw him with a woman at about 1 AM at a time when he was accompanied by Peterson, Special Agent Wood and other members of the party, that Stevens was parked in the car with the girl in front of the hotel and that he also saw him with her the following night at the banquet. He did not take up the matter of overindulgence of liquor with Wood since he felt this would be undesirable to discuss this situation with a subordinate. Furthermore, he states he did not discuss this matter with Peterson because he did not feel he knew Peterson well enough. He admits that he was ashamed of Stevens' actions both in drinking and being with the woman. He admits that he should have reported the situation but he has no explanation to offer. His only explanation in submitting the type of memorandum which he did on December 13th was the fact that he did not realize the true status until he had gone over the matter with Mr. Egan at which time the situation was made clear to him. He states he regrets his mistake and he admits that it was a mistake for

not correctly preparing the proper type of memorandum and frankly advise the Director of the true facts. He admits that he has been remiss in his duties and in the event he is permitted to continue in the future he will personally advise the Director of such derelictions.

Mr. Egan was very much impressed with McGuire's honesty and feels kindly toward him at the present time.

RECOMMENDATIONS AND CONCLUSIONS:

It is obvious that both SAC McGuire and SAC Peterson were derelict in their duties in not reporting Stevens to the Bureau. It is further obvious from the facts that both McGuire and Peterson were sufficiently advised of Stevens' undecoming activities to have warranted them reporting the facts to the Bureau.

Peterson being the oldest SAC and the individual who had been delegated by the Director to address the Convention, it is believed is primarily responsible for not reporting the facts although this does not excuse McGuire from not having done so. Mr. Egan recommends that SAC McGuire be removed as Special Agent in Charge and suspended 30 days. I concur with this recommendation.

Mr. Egan recommends that SAC Peterson's resignation be requested. This is what should be done, although the Director might wish to take into consideration Peterson's 10 years of service and reduce him to CAF 10, salary \$3600 and assign him as a subordinate Agent in some field office after a 30 day suspension.

In a letter to the Director dated December 13th Stevens admits the seriousness of his error, admits his mistake and asks for consideration to his reappointment in the service as an accountant. He has been in the service since June 2, 1931, as an accountant and has done good work. The Director might wish to give consideration to his reappointment as a Special Agent, CAF 6, salary \$3200 after an elapse of 30 days.

Re: G. A. STEVENS

Dear Sir:

In accordance with my request, I have today received a four and a half page statement from Agent in Charge McGUIRE of the New Haven office.

It must be remembered that I told this Agent in Charge exactly what I knew about STEVENS, when I called him, and he has rambled on for, as I have stated above, four and a half pages without saying anything, although STEVENS has admitted and Agent WOOD has stated that STEVENS was drunk at this convention and this was talked over by WOOD, PETERSON and McGUIRE.

I question the value of having an Agent in Charge such as this attending a convention and making contacts, if he is as dumb as he appears to be about the condition of an Agent in Charge from another district, or he is lying. In the first place, he should have reported STEVENS' activity immediately to the Bureau, if he was honest and loyal to the Bureau.

I recommend that this Agent in Charge be suspended for a period of ten days and that he be instructed in the future to tell the truth when he is called upon to make a statement relative to a matter with which he is and was entirely familiar.

This statement is attached hereto.

Respectfully,

J. S. FOAN

MEMORANDUM FOR INSPECTOR JAMES S. EGAN

In accord with your telephonic conversation with the writer this morning I wish to advise that to the best of my recollection the following incidents occurred at Burlington, Vermont during the period September 4th and 5th, 1940 which it is hoped may be of assistance to you and the Bureau.

Particular reference is made to the evening of September 5, 1940 when the final meeting and banquet session was held at the Hotel Burlington at 7:30 P.M. prior to the adjournment of the annual convention of the New England Association of Chiefs of Police. During that afternoon the convention group went on a boat trip across Lake Champlain then by bus to Ausable Chasn, returning via the same route. During that afternoon the writer mingled with various Chiefs paying particular attention to those representatives from Connecticut and Rhode Island.

Dr. CARLETON SIMON of New York was with the writer a good deal of the afternoon and in the course of strolling about the boat it was noted that SAC GEORGE STEVENS of Albany was spending most of his time on the boat dance floor with various wives and daughters of the delegates in attendance. When he was not dancing he was in the stateroom that had a bar set up in it by Chief ARTHUR THALACKER, NPA graduate of Burlington, Vermont, who was host to the convention.

As were most of those in attendance, STEVENS was participating in drinking but he did not appear at any time I saw him, to be under the influence of alcohol or to be boisterous or unbecoming in conduct. There was no doubt, however, that he appeared to be having a very good time and my only personal reaction was that since the purpose of his being at the convention was the same as mine, and same as SAC Peterson of Boston, that more effort should have been exerted on his part to be out making contacts with the Chiefs, where it could do the Bureau some good.

MEMO FOR INSPECTOR JAMES S. EGAN

December 13, 1940

This was mentioned indirectly to STEVENS and the reply was to the effect that only four or five Vermont officials were in attendance and that he already knew those individuals very well, inferring it was up to PETERSON and the writer to take care of the representatives from the New England states covered by the Boston and New Haven Offices.

STEVENS companions during this afternoon included MRS. ARTHUR THALACKER, MRS. FRANK WOOD, a girl from the Burlington Chamber of Commerce whose name I do not recall and if memory serves me correctly, a woman who worked at the local radio station at Burlington, where STEVENS had previously given Bureau radio interviews.

There were only three or four other couples dancing and I believe they were the wives of the MALONEY boys, whose father is Chief of Police at Springfield, Massachusetts. I do not know the name of the woman from the radio station but I do recall seeing STEVENS with her on several occasions during the course of the convention and it is my impression that when the boat docked at Burlington, STEVENS left the dock in this woman's car supposedly I thought, to return to the Burlington Hotel where STEVENS was staying.

The writer, SAC PETERSON and Special Agent and MRS. FRANK WOOD left the dock in Agent WOOD's automobile going to Agent WOOD's home in order to clean up prior to going to the Hotel Burlington for the banquet that night. It is my impression that just prior to leaving the dock STEVENS invited the group up to his room at the hotel for a drink prior to going to the banquet. None of those persons accepted and it is my impression that the writer personally, told STEVENS that he would see him at the banquet proper.

It is pointed out here that both SAC PETERSON and the writer occupied the same room at one of the rooms in the house Agent WOOD lives in and since we were not living at the hotel we returned with Agent WOOD to his house to pack our grips and put them in Agent WOOD's automobile, since both PETERSON and I had reservations to leave Burlington on the evening train sometime during the course of the banquet.

It was not PETERSON's nor my intention to remain

MEMO FOR INSPECTOR JAMES S. EGAN

December 13, 1940

and dance that followed since the work of the convention had been completed up to that point.

Upon returning to the Hotel Burlington at about 7:30 SAC PETERSON, MR. and MRS. FRANK WOOD and the writer properly got a table at the door of the banquet room so we could slip away to make our train. Agent WOOD was to drive PETERSON and I over to the next town where the station was located. Both PETERSON and the writer had our backs to the speakers' table and the main portion of the banquet hall. From this position it was not possible to see where STEVENS was sitting but it was my understanding from Agent WOOD, who was facing the direction where STEVENS was sitting, that STEVENS was at Chief ARTHUR THALACKER's table at the far end of the hall and that MRS. THALACKER, the girl from the Chamber of Commerce previously mentioned and the girl from the radio station were among those at that table. I do not recall the identity of others at that particular table since it was out of my sight.

I do recall, however, that during the course of the dinner, at about that point where the main course was being served, Agent WOOD remarked that STEVENS was leaving the hall. He made some remark to the effect that "there goes the boss" (STEVENS). Both PETERSON and I had to turn around in our chairs to look toward the door and as I did so, I saw STEVENS leaving the banquet hall with a woman. I did not see who she was but assumed it was one of the party from THALACKER's table and it was my impression that it was the girl from the radio station.

Agent WOOD made some remark to the effect that they were probably going up for a drink, meaning I assumed and understood, going up to STEVENS room. I do not recall seeing STEVENS thereafter in the banquet hall.

A number of people attending the banquet were coming in and out of the hall all during the evening, apparently leaving to do some drinking as the invitation to come up and have a drink was being voiced about quite generally.

Shortly after the dinner was over and the speeches completed, a program was started. Since PETERSON and I had about another twenty minutes for train time, we, together with

MEMO FOR INSPECTOR JAMES S. EGAN

December 13, 1940

Special Agent and MRS. FRANK WOOD moved to a vacant table nearer the entertainment center to get a better view of a magician who was performing. The remnants of THALACKER's party were ahead of us at the next table and I do not recall seeing STEVENS nor the radio station girl being there nor do I recall seeing them at any subsequent point.

Shortly thereafter, while the banquet and entertainment was still in session, Agent WOOD took SAC PETERSON and the writer in his car to the next town where we caught the train for Boston and New Haven respectively.

It was my impression that STEVENS had intended to remain over-night at Burlington and to proceed to Albany the following day. I wish to point out that I was in STEVENS room once during the entire convention and that was at luncheon hour on the opening day of the convention. He had some liquor there and was entertaining two or three of the Vermont Chiefs of Police.

On the last day of the convention I was not in STEVENS room nor was I in his room on the night of the banquet, nor did I have any reason to go up there.

STEVENS had mentioned to me at one time during the convention that there was always a crowd in his room and I assumed that when I left the banquet he had invited some of the delegates up to his room.

Very frankly the thought would have not occurred to me that STEVENS would have gone up to the room with a woman unless several others were accompanying him. Although, I admit it did seem inappropriate to leave in the middle of a banquet for a drink, particularly when drinks were served at the dinner.

This was the first big police convention the writer attended and I found getting around making contacts, trying to sell the Bureau, was work and I wondered how STEVENS could be having such a good time and still be doing a job. My first reaction was that possibly I, wasn't going about this type

MEMO FOR INSPECTOR JAMES S. EGAN

December 13, 1940

of contact work the right way but as subsequently learned by observation at Milwaukee at the I.A.C.P. the tactics STEVENS used might cause unfavorable comment in addition to being ineffectual.

MRS. STEVENS was not at Burlington and since it was my impression that both the girl from the Chamber of Commerce and the girl from the radio station were personal friends of Chief and MRS. ARTHUR THALACKER of Burlington, I did not attach any significance to STEVENS spending some time in their company.

Respectfully submitted,

J. J. McGuire

~~CONFIDENTIAL~~

Dear Sir:

Reference is made to my confidential letter to you transmitting a letter from [redacted] Police Department, with reference to information in his possession concerning former Special Agent in Charge GEORGE STEVENS, and Special Agents in Charge J. J. McGUIRE and V. W. PETERSON.

b7D

I saw [redacted] on February 7, 1941, concerning this and he stated at the outset of the interview that he did not want to be considered a "rat" in the Bureau, but that he had written me in the event that the Bureau might not have been acquainted with some things that took place at the convention at Burlington, Vermont, in September.

I informed [redacted] that of course the Bureau desired to obtain any information in his possession and I assured him that the same, of course, would be kept confidential by the Bureau.

He related that [redacted] the convention held by the New England Association of Chiefs of Police at Burlington, Vermont which was held on September 4th and 5th, 1940; that on September 3rd, he believed, GEORGE STEVENS, who was in charge at Albany and who had been [redacted] previously, checked in at the Vermont Hotel, Burlington, in order to attend the convention.

b7D

[redacted] stated that on September 4th the convention had arranged a boat trip for members and guests, which left Burlington about 3 P.M. and that [redacted] noticed that GEORGE STEVENS, when he came on board, had BESSIE BERGMAN with him. [redacted] stated that MISS BERGMAN is employed by Radio Station WCAX, Burlington, and writes up scrip and also writes up articles for newspapers in connection with the station activities. He stated that he knew that MR. STEVENS had become acquainted with MISS BERGMAN through STEVENS' activities in making Bureau broadcasts over Station WCAX.

[redacted] also related that Special Agents in Charge

Director

B'ham 2-11-41

~~Confidential~~ - Re: GEORGE STEVENS, et al.

McGUIRE and PETERSON also took this boat trip but that he did not see McGUIRE or PETERSON with STEVENS at any time on this trip, stating that McGUIRE and PETERSON spent practically all their time on the sun deck of the boat in company with [redacted]

[redacted] related that STEVENS and MISS BERGMAN were with three or four other couples, one of them being Policeman McMASTERS of the Burlington Police Department, and others whom he did not know, and that STEVENS was down below deck around the dance floor and the bar most of the time, and he does not recall seeing STEVENS or MISS BERGMAN on the sun deck at all, and specifically does not recall ever seeing STEVENS with McGUIRE or PETERSON on the boat. [redacted] stated that STEVENS just appeared to be having a good time on the boat and that he did not create any disturbance and was not drunk to a degree that he staggered or did anything out of the way, other than to have a good time.

The boat returned to Burlington about 11 P.M. that night, which was September 4th, and [redacted] visited STEVENS for a short period in STEVENS' room at the Vermont Hotel this night, and at that time MISS BERGMAN and some other couples were in the room with STEVENS. [redacted] stated that he remained only a short time and nothing unusual occurred while he was in there. He stated that neither McGUIRE nor PETERSON nor the resident agent at Burlington, FRANK WOOD, was present. At this juncture [redacted] stated that WOOD, he believed, came down to the boat landing to put his wife on the boat but that WOOD did not go on the boat trip.

The following day, September 5th [redacted] stated that he did not see STEVENS until a short time prior to the banquet, which would be about 6 P.M. and that [redacted] had made the seating arrangements for members and guests, and that after the guests were seated in the banquet hall he noticed that STEVENS was accompanied by BESSIE BERGMAN, and that STEVENS had been drinking considerably, and was standing on his feet at the table assigned to him protesting that his table was too far from the speakers' table. [redacted] related that he went over and talked to STEVENS and told him that he did not expect to have any trouble with agents, at which STEVENS immediately quieted down and said that he certainly would

not have any trouble from him.

[ ] believes that Special Agents in Charge PETERSON and MOQUIN, and Special Agent FRANK WOOD all attended the banquet, but he does not recall where they were seated, and stated definitely that he could not say whether any of the other agents had seen STEVENS at the banquet. Continuing, [ ] stated that during the banquet, and before most of the speeches had been made, STEVENS and MISS BERGMAN left their table and walked out of the banquet room.

b7D

[ ] said that later that night - he believed about 11 P.M., after the banquet had terminated and while most of the guests were in various rooms in small parties in the hotel, he met GEORGE STEVENS in one of the corridors of the hotel and he noticed that STEVENS was "pretty drunk", and he told STEVENS that the best thing he could do would be to go up to his room and go to bed, to which STEVENS agreed. [ ] states that he took STEVENS up to his room, put him in bed and hid his clothes in a dresser drawer, inasmuch as he believed that STEVENS was in no condition to be around the hotel. [ ] stated that at this time he did not see BESSIE BERGMAN, and states definitely that he has absolutely no knowledge that STEVENS had ever kept BESSIE BERGMAN in his hotel room and does not have any knowledge whatsoever that STEVENS had any relations with MISS BERGMAN other than accompanying STEVENS on the boat trip and being at the banquet with him.

[ ] further related that the convention also had a boat trip on September 5th but he did not go on this boat trip and does not know whether STEVENS or the other agents went on this particular boat trip.

[ ] was questioned as to whether he knew, as a matter of fact, whether STEVENS had been keeping company with MISS BERGMAN prior to the convention, and he stated that he did not know; that he knew STEVENS had met MISS BERGMAN because of the Bureau radio broadcasts from this station, and he knew that MISS BERGMAN had been very friendly with the Bureau in giving the Bureau programs considerable publicity, but he does not know whether STEVENS had

Director

B'ham 2-11-41

Confidential - Re: GEORGE STEVENS, et al.

over been keeping company with MISS BERGMAN previous to the convention.

It was further stated by [ ] definitely that during the entire convention he did not see McGUIRE, PETERSON or WOOD at any time take a drink. He stated that he realized that they were entitled to take a drink if they desired, but he, as a matter of fact, never did see any of them take a drink, and certainly did not see them acting in any manner other than as gentlemen and a credit to the Bureau. He stated that Mr. McGUIRE had helped him considerably with several details in connection [ ] and that Mr. PETERSON for the most part spent his time contacting local officials during the convention.

[ ] stated that previous to leaving BURLINGTON he had numerous contacts with Special Agent WOOD, and that WOOD had always impressed him as being an exceptionally good Bureau agent, and one who had always attended strictly to Bureau business.

[ ] in conclusion, stated that he would certainly dislike having either McGUIRE or PETERSON or WOOD become involved because of their attitudes at the convention, because he believed that they were absolutely without fault and their conduct during the entire convention was above criticism.

[ ] believes that someone who is unfriendly to the Bureau probably has written the Bureau concerning STEVENS, and [ ] states that the new President of the New England Association of Chiefs of Police, namely GEORGE N. HUBBARD of LaCrosse, W. V., is very unfriendly to the Bureau and he would not be surprised if it were not HUBBARD who wrote in to the Bureau and greatly exaggerated the facts concerning STEVENS, and he believes HUBBARD might also have involved McGUIRE and PETERSON and WOOD. [ ] stated that he believes HUBBARD would do this, as he has always been most unfriendly to the Bureau.

Very truly yours,

E. P. GUINANZ,  
Special Agent in Charge.
